19TH YEAR. NO. 125.

EAST LIVERPOOL, O., TUESDAY, MAY 27, 1902.

TWO CENTS.

WORK TO START EARLY IN JUNE

Building of the Pan Handle Railroad Extension Will Be Rushed.

THE CONTRACTORS' PLANS

Are to Ship Tools And Men From Youngstown, Where They Are Now Working And Be at Work at Chester Not Later Than June 10.

Definite information has been received in this city that active work upon the construction of the extension of the New Cumberland branch of the Panhandle railroad will commence not later than June 10, and sooner if found possible. This statement was made by Contractor George McNally, who has secured the contract for the construction of the western part of the road.

McNally Bros., who built the extension from Kenilworth to the east end of Chester, are now completing a large contract near Youngstown, and all the tools and steam shovels will be sent to this city from there. It was the intention of Mr. McNally to secure assistance from McLaughlin Bros., of this city, in working on the contract, but the local contractors have their hands full.

The announcement will be hailed with delight not only by the residents of this city and Chester, but by all those owning property along the route of the new road.

Owing to geological conditions, the road will probably not be completed until late in the fall, and possibly not then. Some of the hardest work on the western part of the extension will be encountered in the West Virginia hills, opposite the East End, where much rock is found. The contractors will have two crews of men at work, one working by day, while the other will work at night. Everything possible will be done to rush the contract.

One of the superintendents of Mr. McNally is William Moore, a brother of Motorman Henry Moore, of this city, and while his firm is working on the new extension he will make his home in this city.

ABANDONED HER BABY

NEW CUMBERLAND WOMAN LEFT AN INFANT IN PITTSBURG.

A Sister Found the Child And Took It to Her Home—The Mother Is Demented.

A 4-months-old child which was abandoned in Pittsburg about a week ago was claimed yesterday by Stella Robinson, of New Cumberland, W. Va., as the child of her sister, Mrs. Bessie Smith, and taken to the home of Mrs. Smith's parents near New Cumberland. Concerning the matter a Pittsburg paper contains the following:

The mother of the child married against the will of her parents, and was later deserted by her husband. She was taken to the Homeopathic hospital, where the baby, which was afterward abandoned, was born. After the birth of the child the mother and child removed to the Rescue home, where they stayed until Monday of last week. On that day the woman was discharged from the institution, and a short time afterward left the child in the grass near the home. After abandoning the child the woman wandered to New Cumberland.

When she reached her home her parents at once noticed that her mind was unbalanced by the ordeal which she had passed through. Inquiry for the child brought the information that it had been left at the Rescue home. A few days later the family heard that a child had been abandoned at Mt. Washington and guessed the truth in relation to the matter. They at once sent another daughter to this city. She visited the home and learned that the child was in the asylum. She then called at the central police station, where, after she was properly identified, she was given an order for the child.

The officials will not prosecute the woman for abandonment, owing to her mental condition.

WAGONS COLLIDED

Disastrous Smashup on Eighth Street Caused by Careless Driving.

A collision which took place on Eighth street this morning between

one of the heavy wagons of the Crockery City Ice company and the delivery wagon of Frank Kountz, a butcher, resulted disastrously to Kountz's vehicle.

The drivers were going in opposite directions and the collision occurred when they attempted to pass. Kountz claims he drove over to one side of the road, allowing the driver of the ice wagon plenty of room to pass. The ice man, however, did not turn out far enough and his heavy vehicle crashed into the wheels of Kountz's wagon, demolishing two of them and causing other damage.

It is likely that Kountz will attempt to collect the amount of his damage from the ice company.

CAUGHT BETWEEN TWO BIG ROCKS

HORRIBLE PLIGHT OF A DARING YOUNG DIVER.

Would Have Drowned in a Few Minutes But For Comrade's Timely Aid.

While swimming in the river on the West Virginia side Clarence Clemensen had a very narrow escape from a watery grave last evening. He was in company with a number of the juniors of the Y. M. C. A., all of whom were learning the art under the tutelage of Physical Director Stephens, and it was when Mr. Stephens was assisting some of the other boys that Clemensen had his exciting experience. With George Kilmer he went away from the others and each commenced diving, one of the most popular features of swimming.

After making several successful plunges he indiscreetly made an attempt to dive to a certain point about 15 feet away, and in so doing was caught between two big rocks. Kilmer noticed that he did not come up as quickly as he should, and after waiting probably a minute for him, decided that there was something wrong and heroically made a dive down to ascertain the trouble.

There he found Clemensen tightly squeezed and it was only after a terrible effort that he succeeded in extricating his friend from his perilous position.

Several of the boys rushed to the rescue of the lad when they emerged and had difficulty in forcing the water from Clemensen. He suffered quite a good deal from the effects but came around all right in a few minutes.

ANNUAL BALL

Of the Colored K. of P. Lodge at Lisbon Was a Thorough Success.

Lisbon, May 27.—(Special)—The annual ball of the colored K. of P. lodge was given in Smith's hall here last night. The large number of guests present were treated to a fine supper, after which the dancing was continued until a late hour.

Delegates were in attendance from Salem, Alliance, Akron, Youngstown, Wellsville, East Liverpool, New Brighton and Rochester.

ALUMNI BANQUET

An Attendance of 120 Graduates Expected, Besides Honor Guests.

The tickets for the alumni banquet have been issued. A committee of one or two, according to the size of the class, was appointed to sell tickets in each class. It is estimated that at least 120 graduates will be present in addition to the guests of honor who have been invited by the association.

No one except the members of the association will be permitted to purchase the tickets.

GRANTED A DIVORCE

Elizabeth Hall, of This City, Legally Separated From Her Husband.

Lisbon, May 27.—(Special)—Elizabeth Hall, of East Liverpool, has been granted a divorce from Clarence W. Hall and her maiden name, Elizabeth Shamp, restored.

The testimony at the trial showed that Hall had been guilty of habitual drunkenness for three years and also of extreme cruelty, having repeatedly struck and choked her.

Arranging for Hospital Festival.

A general committee meeting of those appointed to arrange the garden party to be given by the hospital association at Rock Springs next week was held in the Y. M. C. A. this afternoon. Plans were discussed in regard to the coming event, which promises to be a great success.

HERBERT G. SQUIERS, MINISTER TO CUBA.

Uncle Sam's first minister to Cuba is a diplomat of considerable experience. He was secretary of the United States legation at Peking in 1900 and displayed great resourcefulness during the siege of the legations. The plan by which the south wall of the Tartar city was seized was his. He is a West Pointer and fought Indians under General Forsythe at Wounded Knee.

SCORES OF KNIGHTS WILL BE VISITORS

Four Hundred Members of the K. of C. Expected Here Next Friday.

DEGREES TO BE CONFERRED

On a Large Number of Candidates. There Will Be Religious Services, Degree Work And a Banquet—Many Towns to Send Delegates.

At a meeting of the Knights of Columbus, which will be held this evening, final arrangements for the conferring of three degrees upon from 40 to 50 candidates next Friday in this city will be completed. This event will be long remembered by the members of the East Liverpool and Wellsville councils, as the affair will be a joint one.

The program of the day's work has been prepared and will be distributed by Thursday among the several councils that will take part. It will be a long program, and some of the best speakers in the order have been asked to make addresses.

Upon the arrival of the delegations from the several surrounding towns, composed of members and their friends from Dennison, Wheeling, Steubenville, Toronto, Wellsville, Beaver Falls, Youngstown and Pittsburg, high mass at St. Aloysius church will follow. This mass will be celebrated by Rev. Father T. J. Mahan. Following this the class will have the first degree conferred upon them in Brotherhood hall by the degree team of the Youngstown council.

This will occupy the balance of the morning, and at 2 o'clock p. m. a banquet will be held in the Y. M. C. A. hall, which all members of the order have been requested to attend. This event will last almost all the afternoon, or until 5 o'clock at least. At this hour the second degree will be conferred upon the class at Brotherhood hall. This work will be done by the Dennison degree team. The third degree will follow and will be conferred by District Deputy Thomas J. Duffy, of this city, and will last until about 10:30 o'clock.

For the day three halls will be used, and for the purpose designated. Degree work will be worked in Brotherhood hall, the banquet held in the Y. M. C. A. hall, while entertainment and properties will be looked after at the Knights of Columbus hall.

It is expected that not less than 400 members of the order will be present and this number may be greatly exceeded by the visit to the city of friends of the members of the order. A special train will be run to this city from Dennison, which will bring the Dennison and Steubenville delegations.

PUBLIC MEETING

Of All Interested in the Hospital Is to Be Held Tonight.

A public hospital meeting will be held in the Y. M. C. A. this evening at 8 o'clock.

All committees and those interested in the hospital work are requested to be present.

PETITION COUNCIL TO REVOKE ACTION

Pleasant Heights People Still Determined to Have That Street Railway.

TWO THOUSAND SIGNERS

Urge Their Reasons for the Request They Make—Think the Proposed Line Would Not Be Dangerous—Residents Willing to Risk It.

The residents of Pleasant Heights have not abandoned their purpose of having an electric railroad. When council meets tonight a new petition signed by nearly 2,000 voters will be presented, asking council to rescind its recent action, and compel the Street Railway Company to build its line according to the original franchise, which provided for a Pleasant Heights extension.

The petitioners contend that the company, in asking that an ordinance be prepared carrying out its expressed wish, has made it necessary that council show by a vote whether it represents the street railway corporation or the people. They say that a line up Pleasant Heights would not be nearly so dangerous as the line now in operation on the Calcutta hill, and even if it would be more dangerous they claim that as long as they are willing to run the risk of riding over the road, it is not the part of the company to offer protests.

A part of the petition reads: "If the request of the company be granted, what will it lead to? Would it not form a precedent under which other requests of similar nature might be granted? We believe that, rather than abolish these hill lines, the company should be compelled to construct them so that they can be operated with safety to their patrons."

Each member of council received today a letter from George W. Ashbaugh, a representative of the Pleasant Heights residents, stating in part: "Almost every one we have been able to see has gladly signed our petition and the only reason we cannot obtain the signature of every resident of the city is that we lack the time to see them. The down town residents see the justice of our claim."

HAD BEEN THERE BEFORE

And James Dillon Knew What to Expect From the Mayor—A Tramp Bounced.

Smoky row gave forth two more "jags" last evening and the couple constituted the complement before the mayor this morning.

James Dillon, who has before heard "\$1 and costs or \$5.00 in all," was approached by Officer Saulsberry in the upper end of the notorious district. James is a bricklayer by trade and works occasionally, but has been feeling bad of late, and in his attempt to drown his troubles in the face of the flowing bowl met disaster. The mayor sang to him the familiar song and after pleading guilty and arranging to swell the city's coffers he was released.

Officer McDermott thought that he had run into a circumstance when he met James Smith in the extreme lower

end of the row. Smithy bucked when first addressed by the officer but when a club was flourished over his shadow he decided to go peaceably to the sleeping apartments provide by the city.

"My home is wherever I stop," he said to the mayor, "and my occupation is similar to that of a retired capitalist. I am an officer of high degree in the national lodge of the Sons of Rest."

"Leave the city within ten minutes," replied his honor, "or on the afternoon train you will ride to Canton, where you will remain in the Stark county workhouse for one year."

Smith was an old-timer and with a graceful bow thanked his honor and bade adieu to the city.

TRYING TO FIND MISSING HUSBAND

MRS. DANIEL STUTLER FEARS SHE IS DESERTED.

Says They Always Lived Happily Together And Can't Account for His Absence.

When Daniel Stutler left this city for some western town Saturday morning he did not tell his wife, formerly Miss Nan Green, that he was going, or what would be his destination. Mrs. Stutler says there is a woman in the case, and yesterday spent the entire day trying to find the whereabouts of her lost husband. In doing so she lost a day's work, as she is a finisher employed at the Cartwright pottery. Mr. Stutler was employed as a presser at the Buckeye, and his wife states that yesterday he had a position to go to work at the Diamond, making ewers.

Why he left his happy home, Mrs. Stutler was unable to say, for they always lived in peace, she stated. "I am at a loss to account for his actions. I loved that man," said Mrs. Stutler to a reporter, "and I have been told that he had been talking very much to another girl, and that before he left the city he told her that just as soon as he was located he would advise her."

"I don't propose to ask for a divorce, for that would be a pleasure that I will deprive him of. Our little home at 248 Second street was like a dove's nest, furnished nice and we always got along well together. I never thought he would leave me in the manner he did, and I propose to hunt for my husband until he is found."

Mrs. Stutler is well known in this city, and has always been a hard worker. Her work has always been in the potteries, and she was one of the first to obtain employment in the Taylor, Lee & Smith plant at Chester when that pottery was started. Later, however, she left that plant, and has been since employed at Cartwright's, where her record as a hardworking woman is well known. Mrs. Stutler has enlisted the services of friends and proposes to find her wayward husband if it is possible. She is of the opinion that he went to Steubenville Saturday on the excursion, but she does not know this to be a fact.

DAMAGE SUIT SETTLED

Action of Miss Martha McKinnon vs. East Liverpool Railway Disposed Of.

Lisbon, May 27.—(Special)—The case of Mrs. Martha J. McKinnon against the East Liverpool Street Railway company has been settled at defendant's cost.

The case was for \$10,000 damages, which plaintiff claimed was due her for injuries sustained in a street car accident.

Four Games Booked.

The Crockery City Junior team will play two games on Decoration Day, in the morning with a Chester aggregation and in the afternoon with the Carroll club juniors. On Saturday they will play two games at the school picnic at Rock Springs park—one with the Y. M. C. A. juniors and the other with the Columbia cadets.

Emeralds Downed Again.

The Fourth Street Athletic club played havoc with the Emeralds yesterday afternoon. Every member of the former team swatted the ball to his heart's content and the onslaught resulted in their scoring 14 runs while the Emeralds were held down to a couple. The batteries were Smith and Kauffman; Gaston and Yontz.

Missionary Meeting—The Ladies' Home and Foreign Missionary societies of the First Presbyterian church will give a social in the church parlor this evening.

BIG CONVENTION IN FULL BLAST

Contest For Judgeship Apparently Narrowed Down to Four Candidates.

JUDGES CREW AND NORRIS

Are Both Showing Great Strength. Who Will Land the Prize Doubtful. Food Commissionership Likely to Go to Cleveland.

Cleveland, May 27.—(Special)—The Republican convention is in full blast, and is a big enthusiastic gathering. The contest for supreme court judge seems to have narrowed down to four candidates—Judges Summers, of Springfield; Crew, of McConnelsville; Norris, of Youngstown, and Phillips, of Cleveland. Crew is said to be Hanna's choice and appears to be a favorite, though Norris is developing great strength and likely to gain more.

Edward A. Batt, of Cuyahoga, and Horace Ankeny, of Green county, are in the lead for dairy and food commissionership, with Batt ahead. It is believed Cuyahoga will not press Judge Phillips' candidacy for the bench, in order to land the dairy and food commissionership. Mr. Batt expressed the strongest confidence of success.

Hon. R. W. Taylor is here and is looked upon as a coming gubernatorial candidate.

The convention proper will get down to business about 4 p. m.

The Eighteenth district delegation including Stark, Columbiana and Mahoning will caucus at the Kennard at 2 p. m. to perfect its organization. E. W. Hill and H. W. Smith, of East Liverpool; G. V. Sharp, Samuel Buell, of Salem; Reuben Hull and I. B. Cameron, of Salineville; J. F. Adams, of Lisbon, are all here.

Colonel John N. Taylor and W. L. Smith were here last night and announced their intention of returning home this morning.

T. L. Potts, formerly of East Liverpool, is a prominent member of the Cleveland reception committee. The hotels are crowded.

A SAD DEATH

BROTHER OF AN EAST END MAN KILLED AT PITTSBURG.

The Two Had Never Seen Each Other. The Dead Man on His Way to This City.

A few days ago Archie Putnam received the glad word that he would receive a visit from his brother, whom he had never the pleasure of seeing. In fact his brother was to have arrived at the home of Mr. and Mrs. Putnam last evening, but the sad message was received late during the afternoon by Mr. Putnam that his brother had been killed and was now at Pittsburg.

Mr. Putnam's brother was named Joseph and was much younger than Mr. Putnam is. In early life, Mr. Putnam came to this city, and after he had left the home of his mother his brother was born, and since that time he has not had the opportunity of greeting him.

The brothers had been corresponding with each other for some time, and at last arrangements were made whereby Joseph Putnam was to visit his brother in the East End. But it seems fate was against the proposed visit, and instead of the expected pleasure in the home of Mr. and Mrs. Putnam there is sorrow.

While he was at work yesterday afternoon a telegram was taken to the home of Mr. Putnam on High street, which read that Joseph Putnam had been killed by cars at Pittsburg, and from letters found on his person he was on his way to his brother's home in the East End. This message was signed by "G'Mears," and at 5 o'clock this morning Mr. Putnam left for Pittsburg to claim the body.

This morning a News Review reporter called at the home of Mr. Putnam, but no answer was made to repeated knocking at the door of the home. There are very few persons in the East End who know anything about the case.

Why he left his happy home, Mrs. Stutler was unable to say, for they always lived in peace, she stated. "I am at a loss to account for his actions. I loved that man," said Mrs. Stutler to a reporter, "and I have been told that he had been talking very much to another girl, and that before he left the city he told her that just as soon as he was located he would advise her."

"I don't propose to ask for a divorce, for that would be a pleasure that I will deprive him of. Our little home at 248 Second street was like a dove's nest, furnished nice and we always got along well together. I never thought he would leave me in the manner he did, and I propose to hunt for my husband until he is found."

Mrs. Stutler is well known in this city, and has always been a hard worker. Her work has always been in the potteries, and she was one of the first to obtain employment in the Taylor, Lee & Smith plant at Chester when that pottery was started. Later, however, she left that plant, and has been since employed at Cartwright's, where her record as a hardworking woman is well known. Mrs. Stutler has enlisted the services of friends and proposes to find her wayward husband if it is possible. She is of the opinion that he went to Steubenville Saturday on the excursion, but she does not know this to be a fact.

DAMAGE SUIT SETTLED

Action of Miss Martha McKinnon vs. East Liverpool Railway Disposed Of.

Lisbon, May 27.—(Special)—The case of Mrs. Martha J. McKinnon against the East Liverpool Street Railway company has been settled at defendant's cost.

The case was for \$10,000 damages, which plaintiff claimed was due her for injuries sustained in a street car accident.

Four Games Booked.

The Crocker City Junior team will play two games on Decoration Day, in the morning with a Chester aggregation and in the afternoon with the Carroll club juniors. On Saturday they will play two games at the school picnic at Rock Springs park—one with the Y. M. C. A. juniors and the other with the Columbia cadets.

Emeralds Downed Again.

The Fourth Street Athletic club played havoc with the Emeralds yesterday afternoon. Every member of the former team swatted the ball to his heart's content and the onslaught resulted in their scoring 14 runs while the Emeralds were held down to a couple. The batteries were Smith and Kauffman; Gaston and Yontz.

BIG CONVENTION IN FULL BLAST

Contest For Judgeship Apparently Narrowed Down to Four Candidates.

JUDGES CREW AND NORRIS

Are Both Showing Great Strength. Who Will Land the Prize Doubtful. Food Commissionership Likely to Go to Cleveland.

Cleveland, May 27.—(Special)—The Republican convention is in full blast, and is a big enthusiastic gathering. The contest for supreme court judge seems to have narrowed down to four candidates—Judges Summers, of Springfield; Crew, of McConnelville; Norris, of Youngstown, and Phillips, of Cleveland. Crew is said to be Hanna's choice and appears to be a favorite, though Norris is developing great strength and likely to gain more.

Edward A. Batt, of Cuyahoga, and Horace Ankeny, of Green county, are in the lead for dairy and food commissionership, with Batt ahead. It is believed Cuyahoga will not press Judge Phillips' candidacy for the bench, in order to land the dairy and food commissionership. Mr. Batt expressed the strongest confidence of success.

Hon. R. W. Taylor is here and is looked upon as a coming gubernatorial candidate.

The convention proper will get down to business about 4 p. m.

The Eighteenth district delegation including Stark, Columbiana and Mahoning will caucus at the Kennard at 2 p. m. to perfect its organization. E. W. Hill and H. W. Smith, of East Liverpool; G. V. Sharp, Samuel Buell, of Salem; Reuben Hull and I. B. Cameron, of Salineville; J. F. Adams, of Lisbon, are all here.

Colonel John N. Taylor and W. L. Smith were here last night and announced their intention of returning home this morning.

T. L. Potts, formerly of East Liverpool, is a prominent member of the Cleveland reception committee. The hotels are crowded.

A SAD DEATH

BROTHER OF AN EAST END MAN KILLED AT PITTSBURG.

The Two Had Never Seen Each Other. The Dead Man on His Way to This City.

A few days ago Archie Putnam received the glad word that he would receive a visit from his brother, whom he had never the pleasure of seeing. In fact his brother was to have arrived at the home of Mr. and Mrs. Putnam last evening, but the sad message was received late during the afternoon by Mr. Putnam that his brother had been killed and was now at Pittsburg. Mr. Putnam's brother was named Joseph and was much younger than Mr. Putnam is. In early life, Mr. Putnam came to this city, and after he had left the home of his mother his brother was born, and since that time he has not had the opportunity of greeting him.

The brothers had been corresponding with each other for some time, and at last arrangements were made whereby Joseph Putnam was to visit his brother in the East End. But it seems fate was against the proposed visit, and instead of the expected pleasure in the home of Mr. and Mrs. Putnam there is sorrow.

While he was at work yesterday afternoon a telegram was taken to the home of Mr. Putnam on High street, which read that Joseph Putnam had been killed by cars at Pittsburg, and from letters found on his person he was on his way to his brother's home in the East End. This message was signed by "O'Meara," and at 5 o'clock this morning Mr. Putnam left for Pittsburg to claim the body.

This morning a News Review reporter called at the home of Mr. Putnam, but no answer was made to repeated knocking at the door of the home. There are very few persons in the East End who know anything about the case.

M. E. CONFERENCE IN BUSY SESSION

Fifty-Eighth Meeting Held at the
Erie Street Church Large-
ly Attended.

BUSINESS OF IMPORTANCE

Much Has Already Been Attended to
and the Sessions Are Growing in
Interest—Attractive Program Ar-
ranged.

The first meeting of the fifty-eighth session of the Steubenville district conference of the M. E. church was held last evening in the Erie street M. E. church. This was the signal for a large attendance, and the little church was filled, it being estimated that no less than from 250 to 300 persons attended the service. The meeting was quite a successful one, and at the same time very interesting. There was a large representation of the laity, which shows that the services were of interest to all.

The conference was called to order by the presiding elder, Rev. Dr. C. E. Manchester, of Steubenville. There was a short song and praise service at the opening, this being under the direction of Rev. S. P. Lloyd, of Wintersville, Jefferson county.

The devotional exercises were in charge of Rev. J. A. Wright, of West

Bridgeport, and following this the organization of the conference was commented by the appointment of Rev. E. T. Mohn, of Toronto, permanent secretary.

This business occupied but a short time, and was followed by an address by Rev. J. S. Reager, of Steubenville, upon the subject, "All Hail the Power of Jesus' Name." The address was very effective and one of the best thus far made at the conference. This address was followed by an altar service which was in charge of Rev. Dr. Clark Crawford, of the First M. E. church, of this city.

There was also present at the meeting W. L. Dixon, business manager of the Pittsburgh Christian Advocate, but it is not likely he will remain here during the entire conference.

The choir, which is composed of Revs. S. P. Lloyd, J. O. Davidson, E. T. Mohn and A. W. Gruber, will have charge of the music.

The second session was opened this morning at 6:30 o'clock by a sunrise praise meeting, which was quite well attended. This meeting was in charge of Rev. J. O. Davidson and this was followed by a short business session. "The Church Service," a symposium, occupied the balance of the morning.

Business matters are to be considered at the afternoon session, and the time and place of the next district

conference will be looked after. The closing session of the conference will be held this evening, commencing at 8 o'clock when the following program will be rendered:

Evensong, J. A. Rutledge; report of missionary conference, J. V. Orin; "The Church at Work: A Symposium; (1) In the Sunday School, T. F. Phillips; (2) In the Epworth League, E. T. Mohn; (3) In the Prayer Meeting, G. T. Humble; (4) In the Home, A. R. Chapman; minute business; consecration, C. E. Manchester.

During the morning the examining committees met in the Second Presbyterian church on Virginia avenue, where a number of younger preachers were examined. These committees were composed as follows and their work will be completed this afternoon:

License to Preach—J. V. Orin, C. E. Clark, H. M. Rader.

First Year—S. P. Lloyd, J. F. Ellis, E. S. Smith.

Second Year—G. T. Humble, J. A. Rutledge, D. B. Cope.

GRAND ORGAN RECITAL. ST. STEPHEN'S CHURCH, WEDNESDAY, 28TH, 8 P. M.; 50 CENTS.

MISTAKE SOMEWHERE.

Why the Colonel Stopped His Score of Chinamen at Five.

"I had read," said the colonel as he was relating some of his experiences in China, "that if a person fell into the water no one could pull him out, holding that his falling in was a decree of Providence that must not be interfered with.

"One day on one of the canals I stumbled and went overboard, and, although there were twelve boatmen, not one of them would extend me a hand. After a close shave, as I cannot swim, I got aboard again, and as soon as I recovered my breath I yelled at the boss boatman:

"You infernal scoundrel, but why didn't you help me out?"

"It was your 'ate to fall in,' he calmly replied.

"And it's your fate to take a good licking," I said as I went for him.

"When I had finished him off, I took another, and I was just polishing off my fifth victim when the sixth man halted me to say:

"There seems to be a mistake here. We are taught that if a person falls into the water he must save himself or drown, but we are not taught that if he does save himself he is at liberty to lick half of China in revenge."

"I thought his point well taken," laughed the colonel, "and I stopped my score at five and went down to change into dry clothes."—Boston Globe.

ORCHARD AND GARDEN.

The average life of raspberry plantations is about six years.

With grapes the rule should be to dig deep and plant shallow.

For rooting the best cutting of a plant is a shoot of new growth just before it grows woody or at all fibrous.

Trees about the house make it more attractive and homelike, besides shielding it from the cold winds of winter and the hot suns of summer.

Cut the young trees back when placing them in the ground and also trim off some of the roots, especially those that are bruised or broken in any way.

Fruit trees cannot thrive on all kinds of exhausted soil. The trees will make a growth of leaves and wood on poor land, but they require mineral manure to perfect the fruit.

In most cases when planting shade trees the hardness of the trees should be given preference over rapid growth. It is of no advantage to secure a shade tree early only to have it die when most useful.

The Palace Lock.

A woman who had solved the servant girl question by importing a buxom young colored girl from Virginia went out to give her orders for dinner one day and was astounded to see the negro sitting on the floor with her hair, or wool, standing out around her head in a black and shiny nimbus. Not hearing the approach of the mistress, the servant went on with her occupation, which was pulling first one curly lock and then another in a way that suggested that she had either lost a fortune or "got religion."

"For goodness' sake, Betty, what are you doing?" The maid hurriedly scrambled to her feet and answered:

"Oh, nothin', ma'am. I've got a sore throat and was just tryin' to find the lock what would pull mah palate up and cure the tickle."—New York Times.

O'BRIEN IS CONTRADICTED.

Captain McDonald Says No Spanish
Woman Was Abused by Any
American Soldier.

Washington, May 27.—Fred McDonald, of Charlestown, Mass., formerly a captain in the Twenty-sixth volunteer infantry, appeared before the senate committee on the Philippines yesterday.

Senator Lodge quoted from ex-Corporal O'Brien's testimony to the effect that he had witnessed the administration of the water cure to the presidente of the town, while the officers were present. He asked Captain McDonald whether O'Brien was present on that occasion.

"He was not," replied the captain. "It can be proved from the records that O'Brien was on that day at San Joaquin, 30 miles away."

The witness was present when the water cure was administered and it was the only incident of the kind that he knew of during the whole service of 20 months in the Philippines.

Chairman Lodge then read the testimony of O'Brien with regard to the alleged abuse of a woman.

"No such circumstance ever occurred in that town or any other Spanish town of which I had charge," replied the captain. "It is a lie from beginning to end, and I have never known of any Spanish woman being abused by an American in the Philippines."

Senator Lodge then read O'Brien's testimony to the effect that at the town of San Joaquin, at the wedding of the presidente's daughter, the American officers, including Major Cook and Captain McDonald, got drunk and forced the women to dance with them.

"My command of the vocabulary of the English language is not sufficient to characterize that statement properly," declared Captain McDonald. "It is a deliberate lie. Major Cook was on duty at Jaro, a town 60 miles away, on that day and I was on duty at Migaon, as can be proved by the records."

With reference to the charges of misappropriating the company funds he said that the captain of a company never handled the money of the commissary department, so that he would not have had the opportunity to appropriate it even if he had so desired.

O'Brien, he said, had had trouble with officers and men of his company from the time he joined until he left. He related instances of bad conduct on the part of O'Brien which had got him into trouble.

PATTERSON MADE SPEECH.

Claimed He and Paper Consistent on Philippine Question.

Washington, May 27.—Mr. Patterson, of Colorado, one of the minority members of the Philippine committee of the senate, occupied the floor most of yesterday, in a discussion of the Philippine question. Mr. Patterson quoted from the utterances of his newspaper, the Denver News, to show that it consistently had advocated the independence of the Philippines since December, 1898.

He said the editorials quoted by Mr. Foraker some days ago had been written prior to that time. He discussed the whole Philippine question, and several lively colloquies occurred during the speech. Mr. Foraker and Mr. Hoar had a brief debate over President McKinley's proclamation to the Philippines. Sixty-two private pension bills were passed.

HOME MISSION WORK.

Baptist Socidty Selected Officers, at Convention, In St. Paul.

A MESSAGE SENT TO PALMA.

Congratulated Upon the Auspicious Opening of Cuban Republic—Society Closed Convention With Open Parliament.

St. Paul, May 27.—"Mission Work Among Scandinavians" was the general theme of the American Baptist Home Mission society's session yesterday. "Foreign Invasion of New England" was the subject of an address by Rev. D. B. Meeser, of Michigan. Minor business closed the morning session.

The nominating committee yesterday afternoon made the following recommendations, in part, for officers for the ensuing year: President, E. M. Thresher, Ohio; vice presidents, Andrew McLeish, Illinois; I. E. Gates, New York; auditors, Edgar L. Marston, New York; L. F. Requa, New York, corresponding secretary, Thomas J. Morgan, L.L. D., New York; also board of managers.

The report of the committee on nominations was adopted. There is no change except for the election of Mr. Gates as vice president, succeeding Vice President Estey, deceased, and the elections to fill vacancies on the board of managers.

The following message was ordered cabled to Hon. T. Estrada Palma, president of the Cuban republic, at Havana:

"The American Baptist Home Mission society, in session at St. Paul, congratulates you upon the auspicious inauguration of the Cuban republic and prays the blessing of God upon your administration."

The cablegram was signed by President Thresher and other officers. The society closed its anniversary last night with an open parliament upon the subject of missions.

LOS ANGELES GETS ASSEMBLY.

The Pacific Coast City Had 287 Votes to 149 For Cleveland.

New York, May 27.—The next general assembly of the Presbyterian church will be held in Los Angeles, Cal. This was decided upon by the commissioners yesterday when they cast 287 votes for the Pacific coast city against 149 for Cleveland, O.

At the moment when the moderator called for a vote on the question a member of the assembly, who refused to give his name, but who was said to be an elder from Cleveland, made the statement that a railroad had conducted a lobby in favor of Los Angeles among the commissioners. The moderator declared the Cleveland elder out of order. Elder Ernest E. Baker, from Oakland, Cal., said that the man referred to as a lobbyist was a member of the assembly, who had a perfect right to be on the floor of the assembly.

Previous to selecting the next place of meeting the assembly took up the

report on ministerial relief and adopted it. It includes a provision for closing of the home for aged ministers at Perth Amboy, N. J.

The assembly acted adversely on an overture from the presbytery of Los Angeles requesting that ministers coming from the Southern Presbyterian church be honorably retired with the same privileges as if they had served always with the church under the general assembly. The matter came before the assembly in a report from the committee on ministerial relief, which recommended adverse action.

The Rev. Dr. Thomas Perry, of Wilkingsburg, chairman of the committee, said it would open the door for ministers of other denominations to come to the Presbyterian church and claim the same privileges as the ministers who had served the general assembly all their lives.

The Rev. Dr. Benjamin L. Agnew, of Philadelphia, corresponding secretary of the board of ministerial relief, spoke in the same vein. "When the Civil War was closed," he said, "I would have been willing to vote for the union of the two churches. But I am entirely opposed to holding out any money consideration to win them over. When they will come over to us on principle they will have the same privileges as our members."

The Rev. Dr. George L. Shearer, of the American Tract society, then made a brief report of the society's foreign work.

The Rev. Dr. David G. Wylie, of the Scotch Presbyterian church, of New York, then offered a resolution providing that a collection for the tract society be taken in every Presbyterian church during the coming year. The resolution was adopted. Another resolution adopted called on the presbyteries to vote promptly on creed revision.

By unanimous vote the assembly decided to send fraternal greetings to the new Presbyterian church of Mexico, organized last year, which adopted the constitution of the general assembly of the Presbyterian church of the United States of America. Five minutes was also spent in prayer for the new church.

Stated Clerk Dr. Roberts read a list containing the names of 128 Presbyterian ministers who had died since the last assembly.

A resolution of thanks to the American Bible society was then adopted. The Rev. Dr. Taylor, of Rochester, read general resolutions of thanks, which were adopted, in which the Presbyterians of New York city, Moderator Van Dyke, Vice Moderator Noyes, the stated clerk and the Pennsylvanians were mentioned.

Dr. Van Dyke, James Yeerance, chairman of the hospitality committee, and the Rev. Dr. J. Ross Stevenson made brief addresses.

Dr. Stevenson asked the Presbyterians to do their best for New York, where only 8 per cent of the population are evangelical Christians.

The minutes were then read, the moderator pronounced the benediction, the doxology was sung and the general assembly was declared adjourned sine die.

The moderator, in declaring the ad-

FRENCH SAW THE FALLS.

Rochambeaus Greet a Priest and Lady, Whom They Had Met Before.

Buffalo, N. Y., May 27. The members of the French mission who participated in the ceremonies incident to the unveiling of the statue of Count de Rochambeau at Washington, accompanied by Ambassador Cambon, Mme. Cambon, members of the staff of the French embassy and the president's commission, spent a pleasant day at Niagara Falls and again turned toward the east, leaving for West Point at 5 o'clock yesterday afternoon over the West Shore railroad.

Just before the departure of the train for the east a bevy of girls, dressed in white, presented Countess de Rochambeau a large bouquet of flowers, sent by the sisters and pupils of the Sisters of Mercy convent.

The Very Rev. James A. Lanigan, of Buffalo, and Miss Flore Reche, of Rochester, who were among those who received the Marchioness de Rochambeau on the occasion of a visit to the Falls 10 years ago, at the time of the Yorktown celebration, made themselves known to the count and countess, who greeted them cordially and spent five minutes in animated conversation with the venerable prelate.

HON. H. C. M'CORMICK DEAD.

Former Congressman and Ex-Attorney General of Pennsylvania.
Last Illness Brief.

Williamsport, Pa., May 27.—Hon. Henry Clay McCormick, former congressman from the Sixteenth Pennsylvania district for two terms, and attorney general during the administration of Governor Hastings, died at 2:10 o'clock yesterday afternoon. The cause of death was acute Bright's disease, complicated with blood poisoning. Mr. McCormick's illness was of less than a week's duration, as only last week he was at Senator J. Henry Cochran's country home in Virginia and he attended to business after his return.

Many messages of regret have been received by the family from all over the state. Immediately following the announcement of his death there was a general tolling of bells throughout the city.

The funeral will take place on Thursday afternoon.

The Best Liniment

"I have derived great benefit from the use of Chamberlain's Pain Balm for rheumatism and lumbago," says Mrs. Anna Nagelgans, of Tuckahoe, N. J. "My husband used it for a sprained back and was also quickly relieved. In fact it is the best family liniment I have ever used. I would not think of being without it. I have recommended it to many and they always speak very highly of it and declare its merits are wonderful." For sale by Alvin H. Bulger, Druggist.

COUNTY AND NEIGHBORHOOD

William Watters, aged 70, died at Patmos.

The stove molders of Salem, 15 in number, are organizing a union and have applied for a charter.

D. M. Duchanon, a prominent lumberman, was struck and instantly killed by an Erie train at Youngstown.

Over 10,000 fares were registered on the new interurban trolley line between Toronto and Steubenville on circus day.

Mary, the wife of Lewis Scott, of Wilmona, fell into the cellar at her home and broke a rib. She was also badly bruised.

Dr. Scovel, of Wooster university, will deliver the baccalaureate sermon to the graduating class of the college at Canfield.

Harry Stewart, a brakeman, was so badly crushed between cars in the A. & N. yards at Alliance that he cannot live. One of his hands was also cut off.

John Schemansky, aged 53 years, the father of three adult children, was found dead in the city prison at Canton. He had been locked up for drunkenness.

Clyde Fox, a machinist, is under arrest at Alliance charged with having maliciously destroyed property to the amount of \$100 at the Morgan Engineering works.

Morris Price, an aged farmer living just north of East Palestine, died a few days since of softening of the brain. He was survived by four sons, two daughters and his wife.

A man known as "English Billy," fell on a street at Mingo in an exhausted condition, caused by starvation. He was fed at police headquarters and then taken to the infirmary.

Rev. J. W. Kerns, who has been a successful and popular pastor of the Christian church, Steubenville, preached his farewell sermon Sunday evening. He goes to the First Christian church, Allegheny.

Emanuel Thomas, of Salem, was arrested at Alliance charged with having bezzling \$15 from Amos Stauffer, of Salem, for whom he formerly worked. Thomas confessed his guilt, but escaped imprisonment by paying back the money he secured from Stauffer.

Frank Gruber, employed at the ax works at Beaver Falls, fell head first from an upper story and struck a heavy casting on the floor below. He was rendered unconscious and when picked up it was found that his jaw was broken and his front teeth all broken to pieces.

FINE PAINTING OF M'KINLEY.

Attempt Will Be Made to Have It Bought For White House.

Washington, May 27.—A number of the friends of Senator Depew yesterday were invited to his residence to view two portraits by Muller Ury, one of Mrs. Depew and the other of the late President McKinley.

That of Mrs. Depew is pronounced a art critics to be most lifelike, while the portrait of the late president, which is life size and which was finished just before his death, is regarded by Secretary Cortelyou and General Corbin, who visited the senator's residence yesterday, as marvelously correct. It is understood that Senator Depew, Senator Hanna and others will make an effort to have congress purchase the painting for the White House.

A tramp stole a bottle of Dr. Caldwell's Syrup Pepsin. When he appeared in court he explained that he saw in the advertisement that it was "easy to take," so he took it. "Discharged," said the judge. "I will go and take some myself." It is easy to take and it is a perfect laxative. Sold by W. & W. pharmacy.

HOME MISSION WORK.

Baptist Society Selected Officers, at Convention, in St. Paul.

A MESSAGE SENT TO PALMA.

Congratulated Upon the Auspicious Opening of Cuban Republic—Society Closed Convention With Open Parliament.

St. Paul, May 27.—"Mission Work Among Scandinavians" was the general theme of the American Baptist Home Mission society's session yesterday. "Foreign Invasion of New England" was the subject of an address by Rev. D. B. Meeser, of Michigan. Minor business closed the morning session.

The nominating committee yesterday afternoon made the following recommendations, in part, for officers for the ensuing year: President, E. M. Thresher, Ohio; vice presidents, Andrew McLeish, Illinois; I. E. Gates, New York; auditors, Edgar L. Marston, New York; L. F. Requa, New York, corresponding secretary, Thomas J. Morgan, L.L. D., New York; also board of managers.

The report of the committee on nominations was adopted. There is no change except for the election of Mr. Gates as vice president, succeeding Vice President Estey, deceased, and the elections to fill vacancies on the board of managers.

The following message was ordered cabled to Hon. T. Estrada Palma, president of the Cuban republic, at Havana:

"The American Baptist Home Mission society, in session at St. Paul, congratulates you upon the auspicious inauguration of the Cuban republic and prays the blessing of God upon your administration."

The cablegram was signed by President Thresher and other officers. The society closed its anniversary last night with an open parliament upon the subject of missions.

LOS ANGELES GETS ASSEMBLY.

The Pacific Coast City Had 287 Votes to 149 For Cleveland.

New York, May 27.—The next general assembly of the Presbyterian church will be held in Los Angeles, Cal. This was decided upon by the commissioners yesterday when they cast 287 votes for the Pacific coast city against 149 for Cleveland, O.

At the moment when the moderator called for a vote on the question a member of the assembly, who refused to give his name, but who was said to be an elder from Cleveland, made the statement that a railroad had conducted a lobby in favor of Los Angeles among the commissioners. The moderator declared the Cleveland elder out of order. Elder Ernest E. Baker, from Oakland, Cal., said that the man referred to as a lobbyist was a member of the assembly, who had a perfect right to be on the floor of the assembly.

Previous to selecting the next place of meeting the assembly took up the

report on ministerial relief and adopted it. It includes a provision for closing of the home for aged ministers at Perth Amboy, N. J.

The assembly acted adversely on an overture from the presbytery of Los Angeles requesting that ministers coming from the Southern Presbyterian church be honorably retired with the same privileges as if they had served always with the church under the general assembly. The matter came before the assembly in a report from the committee on ministerial relief, which recommended adverse action.

The Rev. Dr. Thomas Perry, of Wilkesburg, chairman of the committee, said it would open the door for ministers of other denominations to come to the Presbyterian church and claim the same privileges as the ministers who had served the general assembly all their lives.

The Rev. Dr. Benjamin L. Agnew, of Philadelphia, corresponding secretary of the board of ministerial relief, spoke in the same vein. "When the Civil War was closed," he said, "I would have been willing to vote for the union of the two churches. But I am entirely opposed to holding out any money consideration to win them over. When they will come over to us on principle they will have the same privileges as our members."

The Rev. Dr. George L. Shearer, of the American Tract society, then made a brief report of the society's foreign work.

The Rev. Dr. David G. Wylie, of the Scotch Presbyterian church, of New York, then offered a resolution providing that a collection for the tract society be taken in every Presbyterian church during the coming year. The resolution was adopted. Another resolution adopted called on the presbyteries to vote promptly on creed revision.

By unanimous vote the assembly decided to send fraternal greetings to the new Presbyterian church of Mexico, organized last year, which adopted the constitution of the general assembly of the Presbyterian church of the United States of America. Five minutes was also spent in prayer for the new church.

Stated Clerk Dr. Roberts read a list containing the names of 128 Presbyterian ministers who had died since the last assembly.

A resolution of thanks to the American Bible society was then adopted. The Rev. Dr. Taylor, of Rochester, read general resolutions of thanks, which were adopted, in which the Presbyterians of New York city, Moderator Van Dyke, Vice Moderator Noyes, the stated clerk and the Pennsylvanians were mentioned.

Dr. Van Dyke, James Yeerance, chairman of the hospitality committee, and the Rev. Dr. J. Ross Stevenson made brief addresses.

Dr. Stevenson asked the Presbyterians to do their best for New York, where only 8 per cent of the population are evangelical Christians.

The minutes were then read, the moderator pronounced the benediction, the doxology was sung and the general assembly was declared adjourned sine die.

The moderator, in declaring the ad-

"I should not care for the revision of creed," he said, "if I did not think it would lead to an era of evangelical work greater than any other in the history of our church."

Rochambeau Greet a Priest and Lady, Whom They Had Met Before.

Buffalo, N. Y., May 27. The members of the French mission who participated in the ceremonies incident to the unveiling of the statue of Count de Rochambeau at Washington, accompanied by Ambassador Cambon, Mme. Cambon, members of the staff of the French embassy and the president's commission, spent a pleasant day at Niagara Falls and again turned toward the east, leaving for West Point at 5 o'clock yesterday afternoon over the West Shore railroad.

Just before the departure of the train for the east a bevy of girls, dressed in white, presented Countess de Rochambeau a large bouquet of flowers, sent by the sisters and pupils of the Sisters of Mercy convent.

The Very Rev. James A. Lanigan, of Buffalo, and Miss Flore Reche, of Rochester, who were among those who received the Marchioness de Rochambeau on the occasion of a visit to the Falls 10 years ago, at the time of the Yorktown celebration, made themselves known to the count and countess, who greeted them cordially and spent five minutes in animated conversation with the venerable prelate.

The orders of Secretary of War Root directing that Captain Harry E. Smith, of the coast artillery, on duty at Fort McHenry, Maryland, be tried by court-martial for drunkenness is a timely warning to army officers who are addicted to alcoholism and is significant of a vigorous policy upon this question that will have the approval of the entire country. Drunkenness and military discipline are absolutely incompatible. Military regulations prescribe severe and sufficient penalties for the offense and should be strenuously and constantly enforced upon all officers and privates alike, and the present head of the war department evidently intends to see that this is done.

The East Liverpool police have made some effort in the direction of cleaning the streets and sidewalks of obstructions in the shape of barrels, boxes, rubbish and litter unlawfully placed there. But there is plenty of work ahead in this line, and they should be encouraged to keep at it until the streets of East Liverpool are in the condition that a city's streets should be. The city ordinances on the subject are violated to an extent that would be tolerated nowhere else. No reason exists why it should be tolerated here.

In response to a general movement on the part of all Protestant churches, the Presbyterian general assembly adopted a resolution, favoring a union of religious denominations for the purpose of securing uniformity in divorce laws and restricting the divorce evil. The Presbyterian church is a powerful organization, and if it devotes itself to this task, co-operating with other great religious denominations, a genuine reform, long needed and earnestly desired by the Christian world, is not only possible, but probable.

Senator Stewart, of Nevada, who was present at its birth and who has watched the growth of the child with jealous care, now declares that the silver issue is dead and buried. The Republicans of the nation are watching Ohio. In a certain sense the Cleveland convention's utterances will be taken as a keynote for the coming congressional campaign. The note will be sounded in no uncertain tones.

Akron will soon have \$30,000 well invested in a Y. M. C. A. building. It now lacks but \$4,000 of the necessary sum. Akron is a larger city than East Liverpool, but it has a smaller Y. M. C. A.

It is universally admitted that it is going to be a hard task to dissolve the hard coal trust. Yet it is a problem that the government ought to tackle.

POTTERY NEWS

The interesting story of a meeting of the boss packers early last week and the later conference with T. J. Duffy, of the National Brotherhood, was told last night, and by a person who is close in the confidence of these people. It is stated that the meeting of these bosses was held in the office of a hill pottery, and as all were members of local union No. 25, matters pertaining to this part of the trade as considered by the recent convention were gone over. It is even said that some of the men at this meeting talked of withdrawing from the local, but advice against this was given, and it might be said, heeded, for no withdrawal cards were asked for by those at the bosses meeting at the session of the local. It is also claimed that, from those at the meeting of the bosses a committee composed of William Swindells, Lysle Ashbaugh, O. H. Boughton, Oliver French and Edward Hargraves was appointed to confer with Secretary Duffy about the contract abolishment. The result of this conference could not be learned. It was not long since a boss packer made the remark that it was of little difference to him whether the contract system was enforced or not, as he paid all the men under him a day wage of \$2.50, and there was one workman who was being paid at the rate of \$3 per day. Matters, it seems, are assuming an interesting phase in this trade.

James Simpson, well known in this city as foreman of the new sanitary shop at New Castle, who was in the city last week, made quite a raid upon some pressing shops. This was shown by the fact that yesterday morning no less than four pressers left the city to start work at New Castle. They were Ralph Woods, of the Diamond; C. J. Shraland, William Salt and T. W. Kirkham, all of the Wallace & Chetwynd shops. These men took trunks well filled with clothing, and this would indicate that the workmen propose to make New Castle their homes. One of the parties took his family with him.

A sensation was created at one of the East End potteries not many days ago, over the actions of one of the male employees. It seems that this individual, who has a family to support, devoted much of his time to one of the girls in another part of the factory, who supposed the man to be unmarried. In fact, the visits to the girl became so noticeable that when the officials of the plant became aware of the actions of the man, they brought matters to a sudden stop. Although both parties are working, both are paying more attention to business and less to each other.

Much talk is now being heard about the annual Brotherhood picnic, which is to be held at Rock Springs park next Monday. In some of the shops it is the main topic, and it is doubtful if there will be a pottery working man in the entire city on that day. Of course all expect to visit the park on that day, and some of the shops will likely be enabled to work up to noon, after which they will devote the balance of the day to out-door pleasures. Assurances are given that the outing will undoubtedly be the largest ever held by the Brotherhood.

Local No. 23, printers and transferrers, held an interesting meeting last evening, when a committee was appointed to arrange a scale of prices for piece work which will be submitted to the executive board of the Brotherhood before the annual conference with the manufacturers is held next month. This is a part of the work that was passed upon by the Trenton convention. Three new members were obligated at this session, and five applications for membership were received.

Fred Pennington, who has been employed at the C. C. Thompson plant for a long time, having resigned, the position has been filled by Enoch Riley, of Chester, who for many years was employed at the old Sebring plant on Second street. Mr. Pennington is now located at Laughlin No. 2.

William Anderson, employed as a jiggerman at the Taylor, Smith & Taylor pottery, Chester, has been appointed secretary of jiggermen's local No. 12, to fill the unexpired term of Walter J. McKeene, who resigned the office on account of having taken a position at Peoria.

John T. Wood, statistician of kilnmen's local No. 9, was to measure one of the new biscuit kilns at the new Laughlin addition this afternoon. A report will be made to the firm at once, and at a meeting of the local to be held two weeks hence.

Brother Brown, as he is known by many of the crockery salesmen of this city, has returned from a short trip for the Dresden. He had quite a successful jaunt; in fact, he usually has.

At the last meeting of packers' local No. 25, William Swindells, boss packer at Thompsons', resigned as one of the

trustees of the local on account of ill health. The vacancy was filled by the appointment of John Tolbert, of McNicols'.

Not much talk is being heard now relative to the kiln firemen organizing a local. It seems there is little interest being taken in this matter, though it has been frequently talked over by some of the firemen.

A meeting of the committee composed of Major Adams, LeRoy Orr and Shel. Moore was held at Brotherhood headquarters last evening for the purpose of talking over matters relative to the annual picnic.

Charles Surles, one of the popular salesmen of the D. E. McNicol plant, left Sunday evening for a trip through western Ohio, Indiana and Illinois. He will be gone for several weeks.

James Miles, who has been employed at the Sebring potteries for a long time, has again returned to the East End, and can now be found at the new Laughlin addition.

Some Trenton potteries are said to have among their employees many boys and girls under the age allowed by law, and an investigation is talked of.

Edward Hatton, a printer, resumed his bench at the Chetwynd plant this morning after being ill since he returned from the Trenton convention.

Sagger makers' local No. 16 held a meeting last evening but nothing other than the routine business was considered.

Miss Nell Wells, of this city, has gone to Steubenville to be a stenographer at the Steubenville pottery.

The American Clay company, of Augusta, Me., has been chartered with \$300,000 capital.

The Potters' Co-operative company is enjoying a nice trade as it has all season.

Bismarck on Champagne.

Years ago, when Baron Hengelmüller was assistant secretary of the Austrian embassy at Berlin, Bismarck gave a dinner to which the baron was invited. All the guests except Von Hengervar drank champagne, and Bismarck, noting the young man's abstinence, asked the reason therefor.

"I have not yet earned the right so to indulge," was the reply.
"Ah, that will not do," remarked Bismarck; "it is allotted to every able-bodied man in this world to consume in his lifetime 10,000 bottles of champagne. So you should begin now lest you fail to secure your just portion."

"If 10,000 bottles be the allotment for the ordinary man," responded the young diplomatist, bowing to the Iron Chancellor, "your excellency, being an extraordinary man, should have double allowance, and I therefore take great pleasure in awarding my share to you."
"I thank you," Bismarck replied, "but permit me to inform you that without waiting for your grand renunciation I have already passed the 20,000 mark."

She'll Sing Hereafter.

A charming young lady of Kensington who glories in the possession of a wealth of bright auburn colored hair is the teacher of a Sunday school class. On a recent Sabbath the rector made the announcement of a hymn to be sung and, rising, waved his hands, and the organ pealed forth.

"Now," said he, "ready—sing."

A small and precocious youth in the young woman's class said:

"Why don't you sing, Miss Frisbee?"

"Me? Oh, I never sing," replied the teacher, smiling her prettiest.

"But," exclaimed the boy, "the minister says you must. Didn't he just say 'Now, Reddy, sing?'"

Smelling salts and numerous other restoratives had to be used to bring the teacher out of her faint.—Philadelphia Telegraph.

Choleric Versus Quiet Natures.

Clarendon, says The Schoolmaster, made careful observation when he wrote: "Angry and choleric men are as ungrateful and unsocial as thunder and lightning, being in themselves all storm and tempest; but quiet and easy natures are like air weather, welcome to all and acceptable to all men; they gather together what the others disperse and reconcile all whom the others incense; as they have the good will, so they have the full possession of themselves, have all their own thoughts at peace and enjoy quiet and ease in their own fortune, how strait soever it may be."

HARDENED TO COLD.

Natives of Siberia Don't Mind a Below Zero Temperature.

Frequently, when we could not expose our ears for two minutes without having them frozen, says a traveler in Siberia, the natives would go for an hour at a time with their heads thrown back from their heads, and when it required constant watchfulness to keep our noses from freezing they did not appear to notice the temperature at all.

One morning in January I stood in perfect amazement at their disregard of the low temperature. They worked for at least half an hour with bare hands packing up the tent and utensils, handling the packages and lashing them together with icy seal thongs without experiencing the least apparent inconvenience, while I partly froze my fingers striking a light for my pipe with a flint and steel, the whole operation taking not more than three minutes.

The night before, happening to go out of the tent after our men had retired, I passed their camp, which was near by. Their fire had burned to a pile of embers, barely affording me light enough to distinguish the sleepers. They were lying coiled up on small deer skins, with their backs to the embers and their fur coats thrown loosely over their naked bodies.

The coat of one of them had slipped almost entirely off his body, leaving his back and shoulders exposed to a temperature of 18 degrees F. below zero, and though his hair was frosted, he snored as soundly as if in comfortable quarters.

The United States and all its possessions and all Europe except Russia could be put into Siberia, with land enough left to make thirty-five states like Connecticut.

The orders of Secretary of War Root directing that Captain Harry E. Smith, of the coast artillery, on duty at Fort McHenry, Maryland, be tried by court-martial for drunkenness is a timely warning to army officers who are addicted to alcoholism and is significant of a vigorous policy upon this question that will have the approval of the entire country. Drunkenness and military discipline are absolutely incompatible. Military regulations prescribe severe and sufficient penalties for the offense and should be strenuously and constantly enforced upon all officers and privates alike, and the present head of the war department evidently intends to see that this is done.

The East Liverpool police have made some effort in the direction of cleaning the streets and sidewalks of obstructions in the shape of barrels, boxes, rubbish and litter unlawfully placed there. But there is plenty of work ahead in this line, and they should be encouraged to keep at it until the streets of East Liverpool are in the condition that a city's streets should be. The city ordinances on the subject are violated to an extent that would be tolerated nowhere else. No reason exists why it should be tolerated here.

In response to a general movement on the part of all Protestant churches, the Presbyterian general assembly adopted a resolution, favoring a union of religious denominations for the purpose of securing uniformity in divorce laws and restricting the divorce evil. The Presbyterian church is a powerful organization, and if it devotes itself to this task, co-operating with other great religious denominations, a genuine reform, long needed and earnestly desired by the Christian world, is not only possible, but probable.

Senator Stewart, of Nevada, who was present at its birth and who has watched the growth of the child with jealous care, now declares that the silver issue is dead and buried. Isn't it time for William J. Bryan, the self-appointed guardian of the infant, to be informed that the funeral has occurred?

Little King Alfonso makes his soldiers uncomfortable by telling them he will always be with them in times of peril. When they have any serious business on hand they will have enough to do without taking care of a boy.

The Republicans of the nation are watching Ohio. In a certain sense the Cleveland convention's utterances will be taken as a keynote for the coming congressional campaign. The note will be sounded in no uncertain tones.

Akron will soon have \$30,000 well invested in a Y. M. C. A. building. It now lacks but \$4,000 of the necessary sum. Akron is a larger city than East Liverpool, but it has a smaller Y. M. C. A.

It is universally admitted that it is going to be a hard task to dissolve the hard coal trust. Yet it is a problem that the government ought to tackle.

Henry Watterson says the Democratic party stands between the nation

The offer of the German emperor to present a German monarch's statue to the United States seems to have caused more uneasiness in Germany than in this country.

There will be a ring of sincerity in the declarations of the Republican state convention. It will be the only ring at all conspicuous there.

For Republicans all roads lead to Cleveland. At Cleveland no difficulty will be experienced in marking out a road that will lead to victory.

POTTERY NEWS

The interesting story of a meeting of the boss packers early last week and the later conference with T. J. Duffy, of the National Brotherhood, was told last night, and by a person who is close in the confidence of these people. It is stated that the meeting of these bosses was held in the office of a hill pottery, and as all were members of local union No. 25, matters pertaining to this part of the trade as considered by the recent convention were gone over. It is even said that some of the men at this meeting talked of withdrawing from the local, but advice against this was given, and it might be said, heeded, for no withdrawal cards were asked for by those at the bosses meeting at the session of the local. It is also claimed that, from those at the meeting of the bosses a committee composed of William Swindells, Lysle Ashbaugh, O. H. Boughton, Oliver French and Edward Hargraves was appointed to confer with Secretary Duffy about the contract abolishment. The result of this conference could not be learned. It was not long since a boss packer made the remark that it was of little difference to him whether the contract system was enforced or not, as he paid all the men under him a day wage of \$2.50, and there was one workman who was being paid at the rate of \$3 per day. Matters, it seems, are assuming an interesting phase in this trade.

James Simpson, well known in this city as foreman of the new sanitary shop at New Castle, who was in the city last week, made quite a raid upon some pressing shops. This was shown by the fact that yesterday morning no less than four presses left the city to start work at New Castle. They were Ralph Woods, of the Diamond; C. J. Shraland, William Salt and T. W. PROGRAM ARRANGED

OF THE EXERCISES FOR MEMORIAL DAY CELEBRATION.

Officers Appointed And the Route of the Procession Fixed—Business Will Suspend.

A meeting of the Henry Cope post, G. A. R., was held last evening in Aten's hall on Main street. Arrangements were perfected for the carrying out of the Memorial day program.

The following officers will be in charge of the exercises: General J. W. Riley, master of ceremonies; T. A. Lloyd, chief marshal; G. B. Aten, officer of the day; Dr. W. S. McFarland, aid; W. C. Fraser, Prof. J. L. McDonald, T. L. Apple, aids in charge of the schools.

Following is the route of the procession: Column will form on public square, head of column south. Boready to move at 8:30 prompt, standard time, and move over the following route, halting at Ninth street, where the children of the schools will join; down Main street to Tenth street, to cemetery; returning up Tenth to Commerce street, up Commerce to Ninth street, Ninth to Main, to G. A. R. hall, where it will be dismissed.

The executive committee have requested all merchants to close their places of business and attend the exercises.

BRICKLAYERS ARE SCARCE

This Is Delaying the Completion of the New Champion Clay Plant.

The new Champion brick works company is at present experiencing considerable delay in the construction of its new buildings, being unable to secure bricklayers. The foundations for all of the buildings have now been completed and but very little can be done until the bricklayers have performed their part of the work.

T. H. Silvers, who is at the head of the works, stated this morning that he had tried everywhere to secure these services of bricklayers, but had been unable thus far to find but very few, all seeming to be engaged for the next two months. If enough can be secured within the next week to go ahead with the work it is thought that the whole plant will be completed and in operation by the latter part of July or the first of August.

A carload of machinery has already arrived and more is on the road and expected any day.

BOWLING CONTEST

An Exciting Series of Games Expected in Wellsville Tonight.

An exciting bowling contest is anticipated this evening by local bowling enthusiasts between the Imperials of East Liverpool and Captain Shingler's team, of this city.

Several contests have been held heretofore between these two teams and they have proven to be well matched, each having won one contest and tied one. At the contest last Tuesday evening at East Liverpool, Wellsville was defeated three straight games, much to the chagrin of local players.

As the Wellsville team has always defeated the Imperials on the local alleys, it is thought the same program will be in effect this evening.

The local team will be composed of the following players: Shingler, Harsha, Hall, Aten and Karr.

POTTERS' PICNIC

Local Union No. 24 Will Run an Excursion to Silver Lake June 16.

Announcement has been made of the first grand picnic and outing to be given by local union No. 24, N. B. of O. P., at Silver Lake Monday, June 16. A special train has been ordered for the occasion and a large crowd is anticipated.

The train will start from East Liverpool, leaving there at 6:30 a. m. and taking on excursionists in this city, Irondale, Salineville and Alliance. Returning the train will leave the lake at 8 o'clock in the evening. The low rate of \$1.25 for the round trip has been secured.

C. B. SMITH FOR COUNCIL

Nomination Made Last Evening By Fourth Ward Republicans.

The Republicans of the Fourth ward held a conference last evening in the hose house and nominated Charles B. Smith for councilman to take Mr. Glaser's place, who resigned at the last council meeting on account of having moved to the Fifth ward and being therefore unable to remain in council.

Mayor Fogo has ordered a proclamation of election to fill the vacancy on June 10, between the hours of 5:30 a. m. and 5:30 p. m. As the vacancy is a hard one to fill, it is thought that the Democrats of the ward will not make any nomination and Mr. Smith will therefore have a clear field.

Board of Education Met.

A regular meeting of the board of education was held last evening in the high school building on Ninth street. The regular monthly bills were read and ordered paid. Aside from this no business of particular importance was transacted. The commencement exercises were discussed by all of the members of the board.

Two Arrested And Fined.

W. H. Fatell was arrested last evening for being drunk and disorderly and was given a hearing this morning before Mayor Fogo and fined \$4.00. Albert Johnston, of Wellsville, was arrested last evening by Railroad Detective Moore for train jumping and when brought before the mayor this morning was also fined \$4.00.

Health Board Meeting.

The new board of health will hold its regular monthly meeting this evening in the mayor's office, at which time it is thought that the new rules of the board will be presented and ordered printed. The board will order 1,000 copies of the book of rules, which will be distributed over the city.

MINOR NEWS OF WELLSVILLE.

Constable E. E. Spies was in Beaver yesterday on legal business. Walter Cheesman left today for Marietta on a short business trip. Judge P. M. Smith is in Lisbon today, where he will handle a case. Mrs. John Mills, of Uniontown, Pa., is visiting friends here for a few days. Mrs. N. J. Bowman, of Canton, is visiting friends in Wellsville for a few days. Mrs. Mary Burgemeyer, of Pittsburg, is visiting her father, B. R. Porter, of this city. Mrs. James Peoples, of Port Huron,

A number of Wellsville base ball fans are planning to attend the National league game at Pittsburg Friday between the champions and Chicago, which club is now in second place.

The following list of delegates from this city are attending the Republican state convention at Cleveland today: Prof. J. L. McDonald, A. J. Brennan, Tom Ferguson, City Solicitor Charles N. Boyd, Ed Ralston, Charles Stevenson and Emmet McKenzie.

A College Man and a Quotation.

Some one once said, "A Harvard man knows all literature but the Bible," a startlingly sweeping generality, but not without truth so far as the Bible is concerned. A case in point came to light the other day. Two Harvard men were reading together some famous modern orations, one of them a eulogy. The eulogy closed with the words: "O death, where is thy sting? O grave, where is thy victory?"

"What a beautiful close!" exclaimed one of the students enthusiastically. "The man who wrote such a sentence as that proves that the grand style in prose did not die with the eighteenth century."

It should be added in fairness that the other student was a churchman and said nothing.—New York Tribune

IN THE OIL FIELD

E. A. Freshwater Has a 100-Barrel Producer—Other New Wells.

E. A. Freshwater last week drilled in another good oil well on the Carson lease, near New Cumberland. The well is good for 100 barrels. It filled up 1,000 feet with oil as soon as it was drilled in and there is 24½ feet of sand.

A number of new rigs are now up and considerable drilling is expected for this summer. The prospects are bright for several good producers.

Drilling has been commenced on the Robinson farm and some good producers are expected to come in.

Murray & Miller, who had their pumping power broken recently in their fields near New Cumberland, have had it repaired.

The Carson pool is at the present time a scene of activity. Four crews of rig builders are now at work building new rigs.

DISORDER AND PROFANITY

Caused John McBee to Be Arrested at the Park and Fined.

John McBee was arrested last evening at Rock Springs park by Park Policemen Hassey and Smith for acting disorderly and using profane language too freely.

When given a hearing this morning before Mayor John Shrader he was fined \$5 and costs, which he paid and was released.

This the first arrest which has been made this summer from the park, but it is expected that as soon as the picnics commence many arrests will be made.

NEW ROAD ACCEPTED

Better Than the Old and It Cost the County Nothing.

The new county road built by the owners of Rock Springs park to take the place of the road which now runs through the hollow in the center of the park property was inspected by the county commissioners Saturday and has been accepted. The space in the hollow will be utilized for a lake. The new road is thought to be much better than the old one and was built without any expense to the county.

Mrs. G. R. Ahrendts has returned from a short visit with Pittsburg friends.

Miss Stella Cunningham, of First street, is able to be out today after her short illness, at first thought to be an attack of measles.

Oliver S. Marshall's new naphtha launch "May" is tied up in front of John Shrader's property. The boat was brought up from New Cumberland last evening.

Assyrian Seals.

The ancient Assyrians nearly 6,000 years ago put in moist clay their seals, engraved in intaglio upon precious stones, on chests and doors. In order to prevent their being opened. There were no locks or keys in those days. If they wished to send a private letter, they would often seal it with a hippogriff, which fabulous winged horse was regarded as the emblem of secrecy. Centuries later the Greeks and Romans adopted similar devices for the same purpose.

EAST END

ARE UP IN ARMS

Residents of East End Propose to Ask Council to Stop Garbage Nuisance.

The residents of the East End propose to go before council and, if possible, find if there is a remedy whereby the dumping of garbage along Lake's run, in the rear of the powder house of the American Sewer Pipe company can be stopped.

Last week this matter became so offensive to the people residing in that section of the East End that Sanitary Officer Burgess was notified, and he made an investigation of the matter. The practice was stopped for a short time, but last night another barrel of garbage was brought from the vicinity of Chaffinville and the contents buried near the powder house.

The persons who owned the barrel forgot to take it away with them for future use after the contents had been buried and the odor arising from it is most sickening. The residents in that part of the city are in no happy mood and propose to find out why such actions are permitted.

The nuisance must be abated at all hazards, claim these people, and they propose to push the matter to the limit and, if needs be, cause several arrests.

Laying More Gas Mains.

Linemen in the employ of the Ft. Pitt Gas company have about completed the laying of the new six-inch gas main on Elizabeth avenue, and the next street that will be served by this company is Harvey avenue. The entire Klondike section will be furnished with gas by this company, and it will require several weeks to lay all the mains in that part of the city.

Mad Dog Killed.

Officer Jay Fisher, instead of devoting all his time to making arrests is open for engagements to kill all wild animals, especially mad dogs. He killed one last evening, and with a bullet from the revolver that was once owned by the notorious Hatfields, famous in West Virginia. The dog was found to be mad during the afternoon, and Fisher soon ended its career.

New Quarters Soon to Open.

The new quarters of the Federal Building and Loan Association of the East End will be opened next Monday. The building, which is owned by Samuel Dixon, has been remodeled, and is now being cleaned, ready for business. It has quite a neat appearance, and is the first financial institution to be opened in that part of the city.

Building More Houses.

Alex. Chafin, of the East End, has commenced to erect a number of additional houses on "Sandy Bottom," which is known as that part of the flat north of Pennsylvania avenue. The houses are small, containing three and four rooms. They will be occupied by persons coming from the south just as soon as they are completed.

Building Will Be Renovated.

The Neville Institute will close its spring term next Thursday, and for the occasion a neat literary program has been arranged. The school will be thoroughly renovated during the vacation season, and will be opened early in the spring.

EAST END AFFAIRS.

James E. Smith, who has been ill at his home on St. George street, for several days, is now suffering with typhoid fever.

During their stay in the East End, Presiding Elder Rev. C. E. Manchester and wife are stopping at the home of Mr. and Mrs. Harker.

T. J. Butler and family have removed to the East End from Jackson, O. They have purchased the new house of James Fulton, on Erie street.

PROGRAM ARRANGED

OF THE EXERCISES FOR MEMORIAL DAY CELEBRATION.

Officers Appointed And the Route of the Procession Fixed—Business Will Suspend.

A meeting of the Henry Cope post, G. A. R., was held last evening in Aten's hall on Main street. Arrangements were perfected for the carrying out of the Memorial day program.

The following officers will be in charge of the exercises: General J. W. Riley, master of ceremonies; T. A. Lloyd, chief marshal; G. B. Aten, officer of the day; Dr. W. S. McFarland, aid; W. C. Fraser, Prof. J. L. McDonald, T. L. Apple, aids in charge of the schools.

Following is the route of the procession: Column will form on public square, head of column south. Bready to move at 8:30 prompt, standard time, and move over the following route, halting at Ninth street, where the children of the schools will join; down Main street to Tenth street, to cemetery; returning up Tenth to Commerce street, up Commerce to Ninth street, Ninth to Main, to G. A. R. hall, where it will be dismissed.

The executive committee have requested all merchants to close their places of business and attend the exercises.

BRICKLAYERS ARE SCARCE

This Is Delaying the Completion of the New Champion Clay Plant.

The new Champion brick works company is at present experiencing considerable delay in the construction of its new buildings, being unable to secure bricklayers. The foundations for all of the buildings have now been completed and but very little can be done until the bricklayers have performed their part of the work.

T. H. Silvers, who is at the head of the works, stated this morning that he had tried everywhere to secure the services of bricklayers, but had been unable thus far to find but very few, all seeming to be engaged for the next two months. If enough can be secured within the next week to go ahead with the work it is thought that the whole plant will be completed and in operation by the latter part of July or the first of August.

A carload of machinery has already arrived and more is on the road and expected any day.

ARE UP IN ARMS

Residents of East End Propose to Ask Council to Stop Garbage Nuisance.

The residents of the East End propose to go before council and, if possible, find if there is a remedy whereby the dumping of garbage along Lake's run, in the rear of the powder house of the American Sewer Pipe company can be stopped.

Last week this matter became so offensive to the people residing in that section of the East End that Sanitary Officer Burgess was notified, and he made an investigation of the matter. The practice was stopped for a short time, but last night another barrel of garbage was brought from the vicinity of Chaffinville and the contents buried near the powder house.

The persons who owned the barrel forgot to take it away with them for future use after the contents had been buried and the odor arising from it is most sickening. The residents in that part of the city are in no happy mood and propose to find out why such actions are permitted.

The nuisance must be abated at all hazards, claim these people, and they propose to push the matter to the limit and, if needs be, cause several arrests.

Laying More Gas Mains.

Lineament in the employ of the Ft. Pitt Gas company have about completed the laying of the new six-inch gas main on Elizabeth avenue, and the next street that will be served by this company is Harvey avenue. The entire Klondike section will be furnished with gas by this company, and it will require several weeks to lay all the mains in that part of the city.

Mad Dog Killed.

Officer Jay Fisher, instead of devoting all his time to making arrests is open for engagements to kill all wild animals, especially mad dogs. He killed one last evening, and with a bullet from the revolver that was once owned by the notorious Hatfields, famous in West Virginia. The dog was found to be mad during the afternoon, and Fisher soon ended its career.

New Quarters Soon to Open.

The new quarters of the Federal Building and Loan Association of the East End will be opened next Monday. The building, which is owned by Samuel Dixon, has been remodeled, and is now being cleaned, ready for business. It has quite a neat appearance, and is the first financial institution to be opened in that part of the city.

Building More Houses.

Alex. Chafin, of the East End, has commenced to erect a number of additional houses on "Sandy Bottom," which is known as that part of the flat north of Pennsylvania avenue. The houses are small, containing three and four rooms. They will be occupied by persons coming from the south just as soon as they are completed.

Building Will Be Renovated.

The Neville Institute will close its spring term next Thursday, and for the occasion a neat literary program has been arranged. The school will be thoroughly renovated during the vacation season, and will be opened early in the spring.

EAST END AFFAIRS.

James E. Smith, who has been ill at his home on St. George street, for several days, is now suffering with typhoid fever.

During their stay in the East End, Presiding Elder Rev. C. E. Manchester and wife are stopping at the home of Mr. and Mrs. Harker.

T. J. Butler and family have removed to the East End from Jackson, O. They have purchased the new house of James Fulton, on Erie street.

EAST LIVERPOOL CLUB WON

Attendance Was Good And a Neat Sum Was Realized for the Benefit of James Wheatley—Score Stood 12 to 5.

Considering the threatening weather the crowd in attendance at the baseball game played in West End park yesterday afternoon was good. The East Liverpool team and the Eclipse club contested, the proceeds going to the benefit of James Wheatley, for whom every one in the city is in sympathy, owing to the serious condition of his health. The gate receipts amounted to nearly \$75, which sum will undoubtedly be received by the sufferer very thankfully and through the gift he will learn that his brother ball players have not forgotten him.

The grounds were in an awful condition, being soaked in the low spots until it was almost impossible for a player to make his way through without falling. Around the home plate and third base there were chuck holes large enough to secrete even Himie Davis.

The rooting fans were there galore. They refrained from discrimination and gave each man his rightful dues. Some of the less enthusiastic might make exceptions to the statement owing to the unmerciful way in which Ferguson was attacked throughout the contest, but had they understood the game perfectly and remembered the playing of the martyr in past games they would have changed their opinion and seconded the movement. He is, in truth, a player of merit, but with the grand stand patronage against him he is all in. Many were disappointed in not finding Godwin and Stark in their positions, but their substitutes were in excellent trim, and had they been masked very few could have told that the change had been made.

The game was called at 4:15, which, it might well be said, was just 15 minutes late and caused considerable grumbling among the spectators who had been promised a 4 o'clock game.

The first team, commonly called the local club, led off, and it certainly looked for a few minutes as if they intended holding the bat until darkness caused a scatterment. They got a great lead and the Eclipse boys found it impossible to overtake them. The latter did, however, make a slight showing in the first and second, but after that were not in the game in any particular and underwent difficulty in holding their contestants down to the dozen runs which they scored.

ALL WRONG

The Mistake is Made By Many East Liverpool Citizens.

Don't mistake the cause of backache. To be cured you must know the cause.

It is wrong to imagine that relief is cure.

You must cure the kidneys. An East Liverpool resident tells you how this can be done.

Mr. W. P. Cochran, of Mulberry street, East End, says: "At intervals for 30 years I had serious kidney and bladder trouble. The agony I went through can hardly be described. Many nights I rolled from one side to another trying to find an easy position for my back. I could not move without having sharp twinges of pain, and I was also troubled with urinary difficulty, the secretions being very irregular, and at times very distressing. I ran down so that I could hardly help myself. Doctors treated me. I took a power of stuff and I had given up all hope when I saw Doan's Kidney Pills advertised as a never failing remedy. I got a box at the W. & W. pharmacy and after taking half of it I could see some improvement. I continued, and the treatment did me more good than anything I ever used."

Sold for 50 cents a box by all dealers. Foster-Milburn Company, Buffalo, States.

The Jimson Athletic club won with hands down from the Jackson Street Athletic club yesterday afternoon. Although the score stood 27 to 16 the game was very interesting and full of excitement. The feature of the game was the marvelous batting of Adams. He made three home runs besides numerous hits. The batteries: Grafton and Canavan; Thompson and Yontz.

P. A. C. Man to Play.

Manager Walsh states that he will have one of the crack P. A. C. boys, of Pittsburg, with the locals when they play the Windsor club, of Allegheny, this week. The young man's name is Nagle and it is said that he has an enviable record in both field and at the bat. It is not known yet what position will be assigned him, but it will likely be third base or short.

Changed the Text.

"Dr. De Witt Talmage during his visit to England in 1879," says the London Chronicle, "had been engaged to preach in a church in one of the large towns of England. On arriving at the building he found it besieged by a throng of from 15,000 to 20,000 people. Naturally, he expected the place would be crowded inside. Instead of this he was surprised to find it only moderately full.

"Why," he demanded of the pastor, "don't you let this crowd of people come in?"

"Oh," said he, "each person inside has paid 4 shillings to get in."

"Dr. Talmage had intended to preach from the text, 'Without money and without price.' He changed his subject."

HALF A MAN.

When a man is sick and can only work half the time he is practically half a man. It requires his whole physical energy to do half a man's work.

In general the weak run down condition which cuts the strength and energy in half is due to disease of the stomach and other organs of digestion and nutrition. You could not expect a half starved man to work more than half the time. The condition of the man with weak stomach is that of the half starved man. He is weak through lack of nutrition.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It enables the perfect nutrition of the body and so restores the strength.

"I had stomach trouble from birth," writes Mr. Willis Seaman, of Washington, D. C., "and suffered with it more or less as I grew up. At the age of 25 I was broken down with dyspepsia. My suffering was terrible. Could not eat without distress. Could only eat a few certain things and was not able to work the time. Every thing I tried only gave me temporary relief. My wife finally persuaded me to try Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets.' I took six bottles of 'Golden Medical Discovery' and two vials of Doctor Pierce's Pleasant Pellets. I then felt so well that I stopped taking medicine. Several months have passed and I can eat anything that is set before me and enjoy it. I am 27 years old and this is the first time I have ever been well."

Dr. Pierce's Pleasant Pellets cure constipation.

"Miss D. doesn't have a single foreign label on her trunks and bags, not a sign that she ever has had them out of the country," said the girl who at the end of a six weeks' trip abroad surveyed her plastered over luggage with pride and admiration.

She Played the Trump Card.

"How did she get here?" At a famous dancing assembly this was the quite audible comment made by several married belles when a beautiful young matron as yet on the outskirts of the exclusive set entered the room. The newcomer, whose first appearance it was, proved herself quite equal to the occasion. She had a nodding acquaintance with nearly every woman in the room. Some of them even went to her luncheon parties. Calmly turning to the most supercilious critic in the room, she echoed as though in reply:

"How did I get here? I drove here, my dear Mrs. Crossbeam. Did you walk?" — Lippincott's Magazine.

THE MARKET MORE ACTIVE.

But It Was at Expense of Standard Stocks—Some Striking Advances, Monday.

New York, May 27.—There was rather more activity in the market yesterday than during the latter part of last week, but it was at the expense of values of standard stocks. There were some specialties which made striking advances, which would have served as a sustaining influence under ordinary circumstances. Neither was there any bad news to account for the selling. The day's immediate developments were rather favorable. But the failure of the favorable developments and of the persistent hardness of the market to attract any general speculative demand for stocks served to discourage some considerable holders who have tired of the passivity of the market, with the result that they unloaded considerable lines yesterday. There seemed to be a large speculative line of St. Paul, Union Pacific and less amounts of various other stocks which were urgently pressed for sale. The only immediate news of a depressing character was the spread of the coal mining labor trouble into some portions of the soft coal field in Virginia and West Virginia. The coalers themselves, however, were little affected. The rate for call money settled down to a quiet 3 per cent basis without inducing any notable demand in the foreign exchange market for return of borrowed money abroad. But despite the relief accorded by the large sums borrowed on the European continent and from our own domestic centers, there is some solicitude apparent in financial circles over the future meeting of the large obligations which have been incurred. Bankers are inclined to nurse their reserve to some extent in order to strengthen their position against the future need. It is believed that the trust companies are also disposed to build up their reserves in compliance with the intimation from the clearing house authorities that the total volume of outstanding credits ought to have greater reserves back of them than those included in the banks' reserves alone.

Among the industrials, which were as irregular as the railroads. Pressed Steel Car was conspicuous for a rise of nearly five points, without explanation. Favorable news from the crops, continued increases in railroad earnings reported for the third week of May, and generally encouraging news from all branches of industry except the coal trade seemed to be ignored in the trading. The market closed quite active and irregular, but with many prominent stocks at about the lowest.

The bond market was rather dull and irregular. Total sales, par value, \$2,045,000.

Score 12 to 16.

The Jimson Athletic club won with hands down from the Jackson Street Athletic club yesterday afternoon. Although the score stood 27 to 16 the game was very interesting and full of excitement. The feature of the game was the marvelous batting of Adams.

He made three home runs besides numerous hits. The batteries: Grafton and Canavan; Thompson and Yontz.

P. A. C. Man to Play.

Manager Walsh states that he will have one of the crack P. A. C. boys, of Pittsburg, with the locals when they play the Windsor club, of Allegheny, this week. The young man's name is Nagle and it is said that he has an enviable record in both field and at the bat. It is not known yet what position will be assigned him, but it will likely be third base or short.

Changed the Text.

"Dr. De Witt Talmage during his visit to England in 1879," says the London Chronicle, "had been engaged to preach in a church in one of the large towns of England. On arriving at the building he found it besieged by a throng of from 15,000 to 20,000 people. Naturally, he expected the place would be crowded inside. Instead of this he was surprised to find it only moderately full.

"Why," he demanded of the pastor, "don't you let this crowd of people come in?"

"Oh," said he, "each person inside has paid 4 shillings to get in."

"Dr. Talmage had intended to preach from the text, 'Without money and without price.' He changed his subject."

HALF A MAN.

When a man is sick and can only work half the time he is practically half a man. It requires his whole physical energy to do half a man's work.

In general the weak run down condition which cuts the strength and energy in half is due to disease of the stomach and other organs of digestion and nutrition. You could not expect a half starved man to work more than half the time. The condition of the man with weak stomach is that of the half starved man. He is weak through lack of nutrition.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It enables the perfect nutrition of the body and so restores the strength.

"I had stomach trouble from birth," writes Mr. William Seaman, of Washingtonville, Orange Co., N. Y., "and suffered with it more or less as I grew up. At the age of 25 I was broken down with dyspepsia. My suffering was terrible. Could not eat without distress. Could only eat a few certain things and was not able to work half the time. Every thing I tried only gave me temporary relief. My wife finally persuaded me to try Dr. Pierce's Golden Medical Discovery and Pleasant Pellets. I took six bottles of 'Golden Medical Discovery' and two vials of Doctor Pierce's Pleasant Pellets. I then felt so well that I stopped taking medicine. Several months have passed and I can do the hardest kind of work, can eat anything that is set before me and enjoy it. I am 27 years old and this is the first time I have ever been well."

Dr. Pierce's Pleasant Pellets cure constipation.

Man's Unkind Cut.

"Miss D. doesn't have a single foreign label on her trunks and bags, not a sign that she ever has had them out of the country," said the girl who at the end of a six weeks' trip abroad surveyed her plastered over luggage with pride and admiration.

"Ah, well, you see Miss D. doesn't need to," replied the unkind man. "She goes across so often, and every one knows it."—New York Press.

She Played the Trump Card.

"How did she get here?" At a famous dancing assembly this was the quite audible comment made by several married belles when a beautiful young matron as yet on the outskirts of the exclusive set entered the room. The newcomer, whose first appearance it was, proved herself quite equal to the occasion. She had a nodding acquaintance with nearly every woman in the room. Some of them even went to her luncheon parties. Calmly turning to the most supercilious critic in the room, she echoed as though in reply:

"How did I get here? I drove here, my dear Mrs. Crossbeam. Did you walk?"—Lippincott's Magazine.

THE MARKET MORE ACTIVE.

But It Was at Expense of Standard Stocks—Some Striking Advances, Monday.

New York, May 27.—There was rather more activity in the market yesterday than during the latter part of last week, but it was at the expense of values of standard stocks. There were some specialties which made striking advances, which would have served as a sustaining influence under ordinary circumstances. Neither was there any bad news to account for the selling. The day's immediate developments were rather favorable. But the failure of the favorable developments and of the persistent hardness of the market to attract any general speculative demand for stocks served to discourage some considerable holders who have tired of the passivity of the market, with the result that they unloaded considerable lines yesterday. There seemed to be a large speculative line of St. Paul, Union Pacific and less amounts of various other stocks which were urgently pressed for sale. The only immediate news of a depressing character was the spread of the coal mining labor trouble into some portions of the soft coal field in Virginia and West Virginia. The coalers themselves, however, were little affected. The rate for call money settled down to a quiet 3 per cent basis without inducing any notable demand in the foreign exchange market for return of borrowed money abroad. But despite the relief accorded by the large sums borrowed on the European continent, and from our own domestic centers, there is some solicitude apparent in financial circles over the future meeting of the large obligations which have been incurred. Bankers are inclined to nurse their reserve to some extent in order to strengthen their position against the future need. It is believed that the trust companies are also disposed to build up their reserves in compliance with the intimation from the clearing house authorities that the total volume of outstanding credits ought to have greater reserves back of them than those included in the banks' reserves alone.

Among the industrials, which were as irregular as the railroads. Pressed Steel Car was conspicuous for a rise of nearly five points, without explanation. Favorable news from the crops, continued increases in railroad earnings reported for the third week of May, and generally encouraging news from all branches of industry except the coal trade seemed to be ignored in the trading. The market closed quite active and irregular, but with many prominent stocks at about the lowest.

The bond market was rather dull and irregular. Total sales, par value, \$2,045,000.

W. C. T. U. to Meet in Geneva.

Boston, May 27.—The official call for the sixth biennial convention of the World's Woman's Christian Temperance union, which has just been issued, designates Geneva as the place and June, 1903, as the time for the meetings. WISH TO END STRIKE.

Labor Leaders and Civic Federation People Met In Chicago.

MORE ARBITRATIVE ATTEMPTS

Discussed, at a Conference—It Is Said, Hanna Must Approve, if Recommendation Is Made—Mitchell Was Present.

Chicago, May 27.—President John Mitchell, of the United Mine Workers of America, who has been in Chicago since Sunday relative to the situation in the bituminous coal fields, met Frank P. Sargent and Franklin MacVeagh, of the Civic Federation, and Samuel Keefe, of the Longshoremens' union, yesterday, and plans for further arbitrating endeavors to settle the anthracite miners' strike on the part of the federation was discussed.

The meeting was executive and definite statements as to the details of the conference were not announced. It is understood, however, that the plan agreed upon contemplates calling another conference of the mine operators and the whole committee of the National Civic Federation at New York, with a view of arbitrating the strike question. It is said that the plan will be sent to Senator Hanna for approval before a recommendation for further arbitration shall be made.

STRIKERS QUITTING REGION.

A Number Leave For Bituminous Fields—Some Engineers and Firemen Won't Strike.

Mahanoy City, Pa., May 27.—Despite President Mitchell's warning against the migration of miners to the bituminous coal fields more strikers left this section yesterday for that region than on any one day since the inauguration of the present suspension at the anthracite mines.

Much apprehension is felt in United Mine Workers' circles here at the action of the colliery engineers and pumpmen at Shamokin and those in the employ of the Lehigh Coal and Navigation company in voting not to quit work on June 2 for the establishment of an eight-hour day. Mass meetings will be held here today to discuss this phase of the situation.

Last night the Philadelphia and Reading Coal and Iron company alleged that it had found bosses to man the pumps and engines in this region. Individual operators are making application for coal and iron police to be stationed at their collieries. More than a hundred armed officers will be sworn in this week.

MINERS NOT LIKELY TO STRIKE.

New York Representatives of Roads in the Virginias So Say.

New York, May 27.—Local representatives of the leading soft coal roads in Virginia and West Virginia said yesterday they had no advices respecting a possible strike by some 125,000 miners in that section. Chairman Fink, of the Norfolk and Western road, said:

"Our miners are mostly negroes. They are not organized, so far as I know. They receive fair wages and seem to be satisfied. I do not believe they are likely to join in any sympathetic movement."

LUMBER FOR ST. VINCENT

A United States Transport to Carry That Donated by Canadian Government.

Washington, May 27.—The navy department has added one more and perhaps the last to the good offices which it has been called on to perform in behalf of the West Indian volcanic sufferers, by undertaking to transport to the homeless people of St. Vincent a large quantity of building lumber which the Canadian government has donated. The lumber is coming by railroad from Canada through to Norfolk, the treasury officials authorizing its passage through the United States in bond and without payment of duty. At Norfolk the lumber will be loaded on the collier Leonidas and transported directly to St. Vincent.

Having relieved all present necessities of the inhabitants of Martinique and St. Vincent, the navy department has decided to suspend further activity in that direction and merely to "stand by" ready to respond to any call for assistance. The little Potomac, which, under the able direction of Lieutenant McCormick, has performed such splendid service in the relief work, will not be sent back again unless new and worse conditions develop.

Outlook In China Is Very Hopeful

By Dr. W. A. P. MARTIN, Ex-President of the Imperial Chinese College, Peking

THE outlook in China is decidedly hopeful for the future. The whole country appears to be awake to the necessity of educational reform. Colleges and graded schools are ordered to be established in all the provinces, and the printing presses of missionary societies are unable to supply scientific books with sufficient rapidity to meet the demand of Chinese readers. Not only has the defeat sustained by China deepened the impression of this necessity for a new education, but the Chinese government has wisely changed the character of its educational tests. Instead of requiring as a condition for appointment to honors and office the composition of sonnets it now requires some knowledge of western science.

I REGARD THE MISSIONARIES' WORK AS HAVING LED THE WAY TO THIS VERY INTELLECTUAL AWAKENING. All missionaries of all denominations and of all countries have contributed to it. As to missionaries being the cause of the Boxer outbreak, they have, to a great extent, been victims of the outbreak, but in no sense have they been its causes.

IN SOME RESPECTS THE SITUATION OF CHINA WITH REFERENCE TO OTHER NATIONS IS MUCH IMPROVED BY RECENT OCCURRENCES. FOREIGN NATIONS, HAVING RUN UP A VERY LARGE BILL IN THE WAY OF WAR INDEMNITY, ARE DESIROUS OF MAINTAINING THE STATUS QUO IN CHINA SO THAT SHE MAY BE ABLE TO PAY OFF THE INDEMNITY.

They accordingly look with disfavor on the movement of any particular country to provoke a conflict on any ground whatever.

The country in general is in a more tranquil condition than I could have expected a year ago. The policy of the government has undergone a great change. It was the progressive measures of the young emperor which brought on the reaction that led to the Boxer outbreak. But now the government has abandoned its reactionary policy and has entered with apparent zeal on a career of progress, the empress dowager leading the way. From her first accession to the supreme power she showed a progressive tendency, and, although for a time she fell under the influence of a hostile reaction, she appears to have resumed, ex animo, her earlier and more liberal inclinations.

loading at St. Vincent today, and she, too, will be withdrawn from further service in the West Indies, returning to New York.

LIEUT. POTTS WELL TREATED.

Not Received by Emperor, Because Latter Has Been Absent.

Berlin, May 27.—Lieutenant Commander Templin M. Potts, the naval attaché of the American embassy here (who succeeded Commander William H. Beehler), will, by appointment, be presented to Admiral Von Tirpitz, the secretary of the imperial admiralty, today.

Lieutenant Commander Potts has already been received by the other German naval officials of high rank with every mark of consideration. The American naval attaché has not yet had an audience of the emperor, simply because his majesty has been almost continuously absent from Berlin since the foreign office was officially notified of Lieutenant Commander Potts' arrival.

71 BODIES RECOVERED.

It Was Thought 40 to 80 Were Still in Mine Last Night.

Fernie, B. C., May 27.—With all experienced miners available for rescue work intelligently utilized in four-hour shifts, the clearing of the ill-fated workings at Coal Creek mine advanced yesterday. No. 3 slope was penetrated to its furthest extremity and all remaining bodies removed. No. 2 slope and workings were being cleared rapidly, and it was expected that by this morning the bodies will have been removed.

Seventy-one had been recovered last night, and estimates of those remaining varied from 40 to 80. There is great diversity of opinion as to the probable cause of the explosion, and a formal investigation will be necessary to decide.

May Aid Tennessee Sufferers.

Washington, May 27.—The house committee on appropriations had under consideration yesterday the resolution offered by Mr. Gibson, of Tennessee, appropriating \$10,000 for the Tennessee mine sufferers. Mr. Gibson appeared before the committee in behalf of the resolution and stated that there were between 1,000 and 1,200 people in needy circumstances by reason of the disaster.

NEWS IN BRIEF.

The largest flowing oil well ever struck in Ohio was shot on the W. H. Coons farm, east of Findlay. The oil spouted 50 feet above the top of the derrick, 72 feet high, for five hours. The production of the well is estimated at 1,000 barrels a day.

At Lexington, Ky., County Judge Bullock assessed fines aggregating \$10,426 against "blind tiger" operators, users of profane language and carriers of concealed weapons in the little town of Athens, Ky.

At Philadelphia, John I. Rogers, as counsel for the Brooklyn National league baseball club, filed a bill in equity in common pleas court No. 1 against James T. McGuire, catcher of the Detroit American league team, to enjoin him from playing with any club but the complainant organization during the season of 1902.

MORO ATTACKED AMERICAN.

Under Flag of Truce Cut Off Soldier's Arm.

Manila, May 27.—While Second Lieutenant Robert C. Humber, of the Tenth infantry, and Sergeant Walling, of the same regiment, were walking six miles from Camp Vickers, in Mindanao, they perceived a single Moro carrying a flag of truce. When the native had approached close to the Americans he suddenly drew his creese and slashed Sergeant Walling, cutting his arm completely off. Lieutenant Humber attempted to shoot the Moro, but his revolver missed fire, and the native escaped in the tall grass.

General Davis, commander of the American forces in Mindanao, has reiterated his orders that no American soldiers are to leave camp unless in a party of at least eight men, who must be armed and prepared for any emergency.

Travelers to California

Naturally desire to see the grandest and most impressive scenery en route. This you will do by selecting the Denver & Rio Grande and Rio Grande Western, "The Scenic Line of the World," and "The Great Salt Lake Route," in one or both directions, as this line has two separate routes across the Rocky mountains between Denver and Ogden. Tickets reading via this route are available either via its main line through the Royal George, Leadville, over Tennessee Pass, through the Canon of the Grand river and Glenwood Springs, or via the line over Marshall Pass and through the Black Canon of the Gunnison, thus enabling the traveler to use one of the above routes going and the other returning. Three splendidly equipped fast trains are operated to and from the Pacific coast, which carry through standard sleepers daily between Chicago, St. Louis, Denver and San Francisco. OHIO REPUBLICANS. For Pale, Sickly Women

Convention Meets Today—Planning For Party Control In 1903 and 1904.

HANNA FOR THE PRESIDENCY.

Talk of His Nomination Indulged In. Convention Likely to Declare Against Trusts That Fix Prices Against Consumers.

Cleveland, May 27.—The Ohio Republican convention convened here today.

With the exception of Senator Foraker, the Ohio Republican leaders were all here last night. Governor Nash, the temporary chairman, General Grosvenor, the prospective permanent chairman; Congressman Dick, chairman of the state executive committee, and other congressmen and leaders spent the evening at the residence of Senator Hanna considering disputed planks in the platform. There are different forms of resolutions on Cuban reciprocity, the trusts and the tariff, but there are no great marked differences of opinion even on these declarations. It is proposed to oppose all trusts that fix prices against consumers, but not to oppose such combinations as save expenses in production. Those insisting on a reduction of the tariff on industries that they claim no longer need protection do want to go further than to recommend such reductions as congress may see fit to make without specifying where or how congress should reduce the same. Cuban reciprocity is the most disputed point before the platform makers.

Next year members of the legislature that choose the successor to Hanna are elected with a full state ticket and out of the purposes of the leaders this year is to secure the control of the party machinery for the important state contest of 1903 and for the presidential election of 1904. The Hanna men claimed last night that they will secure at the district meetings today 18 out of the 21 members of the state central committee.

Much comment was for Hanna for senator to succeed himself next year and for president the following year.

WISH TO END STRIKE.

Labor Leaders and Civic Federation People Met In Chicago.

MORE ARBITRATIVE ATTEMPTS

Discussed, at a Conference—It Is Said, Hanna Must Approve, if Recommendation Is Made—Mitchell Was Present.

Chicago, May 27.—President John Mitchell, of the United Mine Workers of America, who has been in Chicago since Sunday relative to the situation in the bituminous coal fields, met Frank P. Sargent and Franklin MacVeagh, of the Civic Federation, and Samuel Keefe, of the Longshoremen's union, yesterday, and plans for further arbitative endeavors to settle the anthracite miners' strike on the part of the federation was discussed. The meeting was executive and definite statements as to the details of the conference were not announced. It is understood, however, that the plan agreed upon contemplates calling another conference of the mine operators and the whole committee of the National Civic Federation at New York, with a view of arbitrating the strike question. It is said that the plan will be sent to Senator Hanna for approval before a recommendation for further arbitration shall be made.

STRIKERS QUITTING REGION.

A Number Leave For Bituminous Fields—Some Engineers and Firemen Won't Strike.

Mahanoy City, Pa., May 27.—Despite President Mitchell's warning against the migration of miners to the bituminous coal fields more strikers left this section yesterday for that region than on any one day since the inauguration of the present suspension at the anthracite mines.

Much apprehension is felt in United Mine Workers' circles here at the action of the colliery engineers and pumpmen at Shamokin and those in the employ of the Lehigh Coal and Navigation company in voting not to quit work on June 2 for the establishment of an eight-hour day. Mass meetings will be held here today to discuss this phase of the situation. Last night the Philadelphia and Reading Coal and Iron company alleged that it had found bosses to man the pumps and engines in this region. Individual operators are making application for coal and iron police to be stationed at their collieries. More than a hundred armed officers will be sworn in this week.

MINERS NOT LIKELY TO STRIKE.

New York Representatives of Roads In the Virginias So Say.

New York, May 27.—Local representatives of the leading soft coal roads in Virginia and West Virginia said yesterday they had no advice respecting a possible strike by some 125,000 miners in that section. Chairman Pink, of the Norfolk and West ern road, said:

"Our miners are mostly negroes. They are not organized, so far as I know. They receive fair wages and seem to be satisfied. I do not believe they are likely to join in any sympathetic movement."

LUMBER FOR ST. VINCENT

A United States Transport to Carry That Donated by Canadian Government.

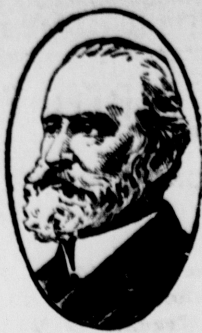

Washington, May 27.—The navy department has added one more and perhaps the last to the good offices which it has been called on to perform in behalf of the West Indian volcanic sufferers, by undertaking to transport to the homeless people of St. Vincent a large quantity of building lumber which the Canadian government has donated. The lumber is coming by railroad from Canada through to Norfolk, the treasury officials authorizing its passage through the United States in bond and without payment of duty. At Norfolk the lumber will be loaded on the collier Leonidas and transported directly to St. Vincent.

Having relieved all present necessities of the inhabitants of Martinique and St. Vincent, the navy department has decided to suspend further activity in that direction and merely to "stand by" ready to respond to any call for assistance. The little Potomac, which, under the able direction of Lieutenant McCormick, has performed such splendid service in the relief work, will not be sent back again unless new and worse conditions develop.

Outlook In China Is Very Hopeful

By Dr. W. A. P. MARTIN, Ex-President of the Imperial Chinese College, Peking

THE outlook in China is decidedly hopeful for the future. The whole country appears to be awake to the necessity of educational reform. Colleges and graded schools are ordered to be established in all the provinces, and the printing presses of missionary societies are unable to supply scientific books with sufficient rapidity to meet the demand of Chinese readers. Not only has the defeat sustained by China deepened the impression of this necessity for a new education, but the Chinese government has wisely changed the character of its educational tests. Instead of requiring as a condition for appointment to honors and office the composition of sonnets it now requires some knowledge of western science.

I REGARD THE MISSIONARIES' WORK AS HAVING LED THE WAY TO THIS VERY INTELLECTUAL AWAKENING. All missionaries of all denominations and of all countries have contributed to it. As to missionaries being the cause of the Boxer outbreak, they have, to a great extent, been victims of the outbreak, but in no sense have they been its causes.

IN SOME RESPECTS THE SITUATION OF CHINA WITH REFERENCE TO OTHER NATIONS IS MUCH IMPROVED BY RECENT OCCURRENCES. FOREIGN NATIONS, HAVING RUN UP A VERY LARGE BILL IN THE WAY OF WAR INDEMNITY, ARE DESIROUS OF MAINTAINING THE STATUS QUO IN CHINA SO THAT SHE MAY BE ABLE TO PAY OFF THE INDEMNITY.

They accordingly look with disfavor on the movement of any particular country to provoke a conflict on any ground whatever.

The country in general is in a more tranquil condition than I could have expected a year ago. The policy of the government has undergone a great change. It was the progressive measures of the young emperor which brought on the reaction that led to the Boxer outbreak. But now the government has abandoned its reactionary policy and has entered with apparent zeal on a career of progress, the empress dowager leading the way. From her first accession to the supreme power she showed a progressive tendency, and, although for a time she fell under the influence of a hostile reaction, she appears to have resumed, ex animo, her earlier and more liberal inclinations.

loading at St. Vincent today, and she, too, will be withdrawn from further service in the West Indies, returning to New York.

LIEUT. POTTS WELL TREATED.

Not Received by Emperor, Because Latter Has Been Absent.

Berlin, May 27.—Lieutenant Commander Tempelin M. Potts, the naval attaché of the American embassy here (who succeeded Commander William H. Beehler), will, by appointment, be presented to Admiral Von Tirpitz, the secretary of the imperial admiralty, today.

Lieutenant Commander Potts has already been received by the other German naval officials of high rank with every mark of consideration. The American naval attaché has not yet had an audience of the emperor, simply because his majesty has been almost continuously absent from Berlin since the foreign office was officially notified of Lieutenant Commander Potts' arrival.

71 BODIES RECOVERED.

It Was Thought 40 to 80 Were Still In Mine Last Night.

Fernie, B. C., May 27.—With all experienced miners available for rescue work intelligently utilized in four-hour shifts, the clearing of the ill-fated workings at Coal Creek mine advanced yesterday. No. 3 slope was penetrated to its furthest extremity and all remaining bodies removed. No. 2 slope and workings were being cleared rapidly, and it was expected that by this morning the bodies will have been removed.

Seventy-one had been recovered last night, and estimates of those remaining varied from 40 to 80. There is great diversity of opinion as to the probable cause of the explosion, and a formal investigation will be necessary to decide.

May Aid Tennessee Sufferers.

Washington, May 27.—The house committee on appropriations had under consideration yesterday the resolution offered by Mr. Gibson, of Tennessee, appropriating \$10,000 for the Tennessee mine sufferers. Mr. Gibson appeared before the committee in behalf of the resolution and stated that there were between 1,000 and 1,200 people in needy circumstances by reason of the disaster.

NEWS IN BRIEF.

The largest flowing oil well ever struck in Ohio was shot on the W. H. Coons farm, east of Findlay. The oil spouted 50 feet above the top of the derrick, 72 feet high, for five hours. The production of the well is estimated at 1,000 barrels a day.

At Lexington, Ky., County Judge Bullock assessed fines aggregating \$10,426 against "blind tiger" operators, users of profane language and carriers of concealed weapons in the little town of Athens, Ky.

At Philadelphia, John I. Rogers, as counsel for the Brooklyn National league baseball club, filed a bill in equity in common pleas court No. 1 against James T. McGuire, catcher of the Detroit American league team, to enjoin him from playing with any club but the complainant organization during the season of 1902.

MORO ATTACKED AMERICAN.

Under Flag of Truce Cut Off Soldier's Arm.

Manila, May 27.—While Second Lieutenant Robert C. Humber, of the Tenth infantry, and Sergeant Walling, of the same regiment, were walking six miles from Camp Vickers, in Mindanao, they perceived a single Moro carrying a flag of truce. When the native had approached close to the Americans he suddenly drew his creese and slashed Sergeant Walling, cutting his arm completely off. Lieutenant Humber attempted to shoot the Moro, but his revolver missed fire, and the native escaped in the tall grass.

General Davis, commander of the American forces in Mindanao, has reiterated his orders that no American soldiers are to leave camp unless in a party of at least eight men, who must be armed and prepared for any emergency.

Travelers to California

Naturally desire to see the grandest and most impressive scenery en route. This you will do by selecting the Denver & Rio Grande and Rio Grande Western, "The Scenic Line of the World," and "The Great Salt Lake Route," in one or both directions, as this line has two separate routes across the Rocky mountains between Denver and Ogden. Tickets reading via this route are available either via its main line through the Royal George, Leadville, over Tennessee Pass, through the Canon of the Grand river and Glenwood Springs, or via the line over Marshall Pass and through the Black Canon of the Gunnison, thus enabling the traveler to use one of the above routes going and the other returning. Three splendidly equipped fast trains are operated to and from the Pacific coast, which carry through standard sleepers daily between Chicago, St. Louis, Denver and San Francisco. Dining cars (service a la carte) on all through trains. If you contemplate such a trip, let us send you beautifully illustrated pamphlets, free. S. K. Hooper, G. P. & T. A., Denver, Col. 7-13-12

OHIO REPUBLICANS.

Convention Meets Today—Planning For Party Control In 1903 and 1904.

HANNA FOR THE PRESIDENCY.

Talk of His Nomination Indulged In. Convention Likely to Declare Against Trusts That Fix Prices Against Consumers.

Cleveland, May 27.—The Ohio Republican convention convened here today.

With the exception of Senator Foraker, the Ohio Republican leaders were all here last night. Governor Nash, the temporary chairman, General Grosvenor, the prospective permanent chairman; Congressman Dick, chairman of the state executive committee, and other congressmen and leaders spent the evening at the residence of Senator Hanna considering disputed planks in the platform. There are different forms of resolutions on Cuban reciprocity, the trusts and the tariff, but there are no great marked differences of opinion even on these declarations. It is proposed to oppose all trusts that fix prices against consumers, but not to oppose such combinations as save expenses in production. Those insisting on a reduction of the tariff on industries that they claim no longer need protection do want to go further than to recommend such reductions as congress may see fit to make without specifying where or how congress should reduce the same. Cuban reciprocity is the most disputed point before the platform makers.

Next year members of the legislature that choose the successor to Hanna are elected with a full state ticket and one of the purposes of the leaders this year is to secure the control of the party machinery for the important state contest of 1903 and for the presidential election of 1904. The Hanna men claimed last night that they will secure at the district meetings today 18 out of the 21 members of the state central committee.

Much comment was for Hanna for senator to succeed himself next year and for president the following year.

Home Sweet Home!

Mid pleasures and palaces though we may roam,
Be it ever so humble there's no place like home;
A charm from the skies seems to hallow us there
Which seek through the world is ne'er met with elsewhere.

An exile from home, pleasure dazzles in vain,
Ah, give me my lowly thatched cottage again,
The birds singing sweetly that came to my call,
Give me them and that peace of mind, dearer than all.

HE poet when he wrote these immortal verses touched a note that finds an echo in every Anglo-Saxon breast. How we love the sentiment expressed! Perhaps your home has been so varied by many movings that these lines don't find their responsive chord? Is it wise to live in a house that is not your own, putting up with all the inconveniences of a tenant house, the ups and downs with the landlord and a thousand vexations that arise when almost by the reaching out of your hand a home comes within your reach? Through us is offered to you your choice of more than

300 Homes

in the city, at all prices, in all locations and at all kinds of terms of purchase. Whether you have much money or little, we would like to have you see what we can do for you toward your owning a home. We are not entirely mercenary in this plea for your consideration. Profit we must have, yet we hope that your profit will be the greater. Hundreds of satisfied purchasers throughout the city will tell you of us. Come and let us do the thinking and planning for you that you may own a home, realizing that it is yours, and join in the chorus and sing

Home, home, sweet, sweet home
There's no place like home.

PARTED BY TRIFLES

HONEYMOON QUARRELS SOMETIMES END IN SEPARATION.

Trivial Things That Have Striven the Sea of Matrimony With the Weeks of Married Lives Before the Voyage Was Fairly Begun.

"The only reliable thing in marriage is its uncertainty," Douglas Jerrold once remarked in a cynical moment, and, like many sayings to which one may object, this aphorism contains at least an elementary truth. It is a curious fact that while some matrimonial barks survive fifty or more years of voyaging and come safely into harbor at last others are wrecked before they leave the still waters of the honeymoon.

This was the fate of a couple known to the writer who were married a few years ago under the brightest of auspices and for whom their friends predicted nothing but happiness. The very first day of the honeymoon their wedded lives came to an abrupt and tragic termination from the simplest of causes.

The bride had brought with her on the honeymoon a parasol of a vivid, aggressive red color, to which her husband objected. He begged her not to use it, but she persisted. The dispute grew warmer and warmer, heated words were exchanged, until at last in an impulse of anger the bridegroom snatched the sunshade out of his wife's hands and threw it into the sea.

Thus ended their life together, for the indignant young wife took the next train to her mother's home, and from that day to this the foolish people have never met.

In another case, known professionally to the writer, a dispute as to the pronunciation of a word completely wrecked the married life of a young couple and brought their little tragedy into the light of the law courts.

It came out in evidence that during the honeymoon the bridegroom had ventured to correct the bride, who had mispronounced a word at the breakfast table. She resented the correction, maintaining that she was right and her lord and master wrong. The argument thus begun ended in a bitter quarrel, during which each disputant no doubt said things which had much better have been left unsaid, with the result that the silly couple separated, each refusing to yield to the other.

Efforts were made by their friends and relatives to heal the breach, but to no purpose, and the little tragedy ended in a judicial separation.

It seems almost incredible that people should allow their lives to be wrecked by such trivial causes, but in both these cases actual fact proves stranger even than fiction.

More ludicrous, if not more trivial, was the cause that separated a couple who were united less than a year ago. In a suit by a husband for the restitution of conjugal rights the wife declared that it was impossible to live with the plaintiff "because he snored so dreadfully."

"But, surely," the judge remarked, "this is not a sufficient reason for staying away from your husband?" "You would think it was, my lord," the lady replied, "if you lived with him. I couldn't get a wink of sleep in any part of the house, and even the neighbors complained of his snoring. It will kill me if I have to go back."

Unreasonable suspicions have contributed as much as any cause to the undoing of husbands and wives. In one domestic tragedy which was unfolded in the law courts a few years ago a newly married wife had received a letter addressed in a masculine hand. The husband, who was of a jealous temperament, demanded to see the letter, which the wife refused to show him.

High words ensued, and in a moment of uncontrollable passion the husband struck his wife, with the result that she went home to her parents and refused to live with him again.

The most tragic and dramatic part of the story was the lady's statement in court that the letter which had caused all the trouble had been written by her brother.

A clergyman told the writer that he once married a rustic couple whose matrimonial life terminated at the church door at the conclusion of the wedding ceremony.

It appears that the bridegroom had discovered that his bride had sold her mangle, which had been one of the chief inducements to marry her, and she had made an equally disappointing discovery that her swain had sold a handsome clock on which she had set her heart. Thus were two lives wrecked by a mangle and a clock, however strange and foolish it may seem.

In another case a young widow who had married an elderly bachelor who was reputed to be wealthy found after her marriage that her false lover had parted with every penny of his fortune in purchasing an annuity for his own life and was so disgusted with his meanness that she left him to the undisturbed enjoyment of his annuity.

One recreant husband gave as a reason for declining to live with his wife the discovery that the hair which had constituted her chief charm in his eyes was false and that he could no longer either love or respect a wife who had so deceived him.—London Tit-Bits.

Home Sweet Home!

Mid pleasures and palaces though we may roam,
Be it ever so humble there's no place like home;
A charm from the skies seems to hallow us there
Which seek through the world is ne'er met with elsewhere.

An exile from home, pleasure dazzles in vain,
Ah, give me my lowly, thatched cottage again,
The birds singing sweetly that came to my call,
Give me them and that peace of mind, dearer than all.

HE poet when he wrote these immortal verses touched a note that finds an echo in every Anglo-Saxon breast. How we love the sentiment expressed! Perhaps your home has been so varied by many movings that these lines don't find their responsive chord?

Is it wise to live in a house that is not your own, putting up with all the inconveniences of a tenant house, the ups and downs with the landlord and a thousand vexations that arise when almost by the reaching out of your hand a home comes within your reach? Through us is offered to you your choice of more than

in the city, at all prices, in all locations and at all kinds of terms of purchase. Whether you have much money or little, we would like to have you see what we can do for you toward your owning a home. We are not entirely mercenary in this plea for your consideration. Profit we must have, yet we hope that your profit will be the greater. Hundreds of satisfied purchasers throughout the city will tell you of us. Come and let us do the thinking and planning for you that you may own a home, realizing that it is yours, and join in the chorus and sing

How to Form the Reading Habit.

In order to organize odd minutes into fruitful hours one must have a consistent scheme and keep the means of carrying it out within reach. Too many people read the books which come in their way instead of putting themselves in the way of getting the right books. They buy and borrow without thought or plan because they do not understand that reading ought to be a resource as well as a recreation. Decide in advance what books you will read, and do not take up with those which drift in your direction. Do not burden yourself with a scheme so extensive that it discourages you; do not at the start plan courses of reading so vast that you are weighed down with their magnitude. Begin in a quiet and easy way by planning to read consecutively a few books in some field which interests you.—Hamilton W. Mable in Ladies' Home Journal.

No Names Needed.

A western Kansas story shows how to be personal without mentioning names.

It was in a poker game at Colby. The sheriff of Logan county had been steadily losing to the treasurer of Ellis county. The treasurer of Ellis county had the misfortune to be possessed of but one eye, and he was a little clumsy in handling the cards. After a play in which the treasurer took a big pot from the sheriff the sheriff said, "Gentlemen, I ain't a-namin' no names, but if some of you don't quit raisin' cards from the floor he'll get his other eye knocked out!"—Kansas City Journal.

WORK TO START EARLY IN JUNE

Building of the Pan Handle Railroad Extension Will Be Rushed.

THE CONTRACTORS' PLANS

Are to Ship Tools And Men From Youngstown, Where They Are Now Working And Be at Work at Chester Not Later Than June 10.

Definite information has been received in this city that active work upon the construction of the extension of the New Cumberland branch of the Panhandle railroad will commence not later than June 10, and sooner if found possible. This statement was made by Contractor George McNally, who has secured the contract for the construction of the western part of the road.

McNally Bros., who built the extension from Kenilworth to the east end of Chester, are now completing a large contract near Youngstown, and all the tools and steam shovels will be sent to this city from there. It was the intention of Mr. McNally to secure assistance from McLaughlin Bros., of this city, in working on the contract, but the local contractors have their hands full.

The announcement will be hailed with delight not only by the residents of this city and Chester, but by all those owning property along the route of the new road.

Owing to geological conditions, the road will probably not be completed until late in the fall, and possibly not then. Some of the hardest work on the western part of the extension will be encountered in the West Virginia hills, opposite the East End, where much rock is found. The contractors will have two crews of men at work, one working by day, while the other will work at night. Everything possible will be done to rush the contract.

One of the superintendents of Mr. McNally is William Moore, a brother of Motorman Henry Moore, of this city, and while his firm is working on the new extension he will make his home in this city.

ABANDONED HER BABY

NEW CUMBERLAND WOMAN LEFT AN INFANT IN PITTSBURG.

A Sister Found the Child And Took It to Her Home—The Mother Is Demented.

A 4-months-old child which was abandoned in Pittsburg about a week ago was claimed yesterday by Stella Robinson, of New Cumberland, W. Va., as the child of her sister, Mrs. Bessie Smith, and taken to the home of Mrs. Smith's parents near New Cumberland. Concerning the matter a Pittsburg paper contains the following:

The mother of the child married against the will of her parents, and was later deserted by her husband. She was taken to the Homeopathic hospital, where the baby, which was afterward abandoned, was born. After the birth of the child the mother and child removed to the Rescue home, where they stayed until Monday of last week. On that day the woman was discharged from the institution, and a short time afterward left the child in the grass near the home. After abandoning the child the woman wandered to New Cumberland.

When she reached her home her parents at once noticed that her mind was unbalanced by the ordeal which she had passed through. Inquiry for the child brought the information that it had been left at the Rescue home. A few days later the family heard that a child had been abandoned at Mt. Washington and guessed the truth in relation to the matter. They at once sent another daughter to this city. She visited the home and learned that the child was in the asylum. She then called at the central police station, where, after she was properly identified, she was given an order for the child.

The officials will not prosecute the woman for abandonment, owing to her mental condition.

WAGONS COLLIDED

Disastrous Smashup on Eighth Street Caused By Careless Driving.

A collision which took place on Eighth street this morning between two wagons is to be a great success.

one of the heavy wagons of the Crockery City Ice company and the delivery wagon of Frank Kountz, a butcher, resulted disastrously to Kountz's vehicle.

The drivers were going in opposite directions and the collision occurred when they attempted to pass. Kountz claims he drove over to one side of the road, allowing the driver of the ice wagon plenty of room to pass. The ice man, however, did not turn out far enough and his heavy vehicle crashed into the wheels of Kountz's wagon, demolishing two of them and causing other damage.

It is likely that Kountz will attempt to collect the amount of his damage from the ice company.

CAUGHT BETWEEN TWO BIG ROCKS

HORRIBLE PLIGHT OF A DARING YOUNG DIVER.

Would Have Drowned In a Few Minutes But For Comrade's Timely Aid.

While swimming in the river on the West Virginia side Clarence Clemensen had a very narrow escape from a watery grave last evening. He was in company with a number of the juniors of the Y. M. C. A., all of whom were learning the art under the tutelage of Physical Director Stephens, and it was when Mr. Stephens was assisting some of the other boys that Clemensen had his exciting experience. With George Kilmer he went away from the others and each commenced diving, one of the most popular features of swimming.

After making several successful plunges he indiscreetly made an attempt to dive to a certain point about 15 feet away, and in so doing was caught between two big rocks. Kilmer noticed that he did not come up as quickly as he should, and after waiting probably a minute for him, decided that there was something wrong and heroically made a dive down to ascertain the trouble.

There he found Clemensen tightly squeezed and it was only after a terrible effort that he succeeded in extricating his friend from his perilous position. Several of the boys rushed to the rescue of the lads when they emerged and had difficulty in forcing the water from Clemensen. He suffered quite a good deal from the effects but came around all right in a few minutes.

ANNUAL BALL

Of the Colored K. of P. Lodge at Lisbon Was a Thorough Success.

Lisbon, May 27.—(Special)—The annual ball of the colored K. of P. lodge was given in Smith's hall here last night. The large number of guests present were treated to a fine supper, after which the dancing was continued until a late hour.

Delegates were in attendance from Salem, Alliance, Akron, Youngstown, Wellsville, East Liverpool, New Brighton and Rochester.

ALUMNI BANQUET

An Attendance of 120 Graduates Expected, Besides Honor Guests.

The tickets for the alumni banquet have been issued. A committee of one or two, according to the size of the class, was appointed to sell tickets in each class. It is estimated that at least 120 graduates will be present in addition to the guests of honor who have been invited by the association.

No one except the members of the association will be permitted to purchase the tickets.

GRANTED A DIVORCE

Elizabeth Hall, of This City, Legally Separated From Her Husband.

Lisbon, May 27.—(Special)—Elizabeth Hall, of East Liverpool, has been granted a divorce from Clarence W. Hall and her maiden name, Elizabeth Shamp, restored.

The testimony at the trial showed that Hall had been guilty of habitual drunkenness for three years and also of extreme cruelty, having repeatedly struck and choked her.

Arranging for Hospital Festival.

A general committee meeting of those appointed to arrange the garden party to be given by the hospital association at Rock Springs next week was held in the Y. M. C. A. this afternoon. Plans were discussed in regard to the coming event, which promises to be a great success.

HERBERT G. SQUIERS, MINISTER TO CUBA.

Uncle Sam's first minister to Cuba is a diplomat of considerable experience. He was secretary of the United States legation at Peking in 1900 and displayed great resourcefulness during the siege of the legations. The plan by which the south wall of the Tartar city was seized was his. He is a West Pointer and fought Indians under General Forsythe at Wounded Knee.

SCORES OF KNIGHTS WILL BE VISITORS

Four Hundred Members of the K. of C. Expected Here Next Friday.

DEGREES TO BE CONFERRED

On a Large Number of Candidates. There Will Be Religious Services, Degree Work And a Banquet—Many Towns to Send Delegates.

At a meeting of the Knights of Columbus, which will be held this evening, final arrangements for the conferring of three degrees upon from 40 to 50 candidates next Friday in this city will be completed. This event will be long remembered by the members of the East Liverpool and Wellsville councils, as the affair will be a joint one.

The program of the day's work has been prepared and will be distributed by Thursday among the several councils that will take part. It will be a long program, and some of the best speakers in the order have been asked to make addresses.

Upon the arrival of the delegations from the several surrounding towns, composed of members and their friends from Dennison, Wheeling, Steubenville, Toronto, Wellsville, Beaver Falls, Youngstown and Pittsburg, high mass at St. Aloysius church will follow. This mass will be celebrated by Rev. Father T. J. Mahan. Following this the class will have the first degree conferred upon them in Brotherhood hall by the degree team of the Youngstown council.

This will occupy the balance of the morning, and at 2 o'clock p. m. a banquet will be held in the Y. M. C. A. hall, which all members of the order have been requested to attend. This event will last almost all the afternoon, or until 5 o'clock at least. At this hour the second degree will be conferred upon the class at Brotherhood hall. This work will be done by the Dennison degree team. The third degree will follow and will be conferred by District Deputy Thomas J. Duffy, of this city, and will last until about 10:30 o'clock.

For the day three halls will be used, and for the purpose designated. Degree work will be worked in Brotherhood hall, the banquet held in the Y. M. C. A. hall, while entertainment and properties will be looked after at the Knights of Columbus hall. It is expected that not less than 400 members of the order will be present and this number may be greatly exceeded by the visit to the city of friends of the members of the order. A special train will be run to this city from Dennison, which will bring the Dennison and Steubenville delegations.

PETITION COUNCIL TO REVOKE ACTION

Pleasant Heights People Still Determined to Have That Street Railway.

TWO THOUSAND SIGNERS

Urge Their Reasons for the Request They Make—Think the Proposed Line Would Not Be Dangerous—Residents Willing to Risk It.

The residents of Pleasant Heights have not abandoned their purpose of having an electric railroad. When council meets tonight a new petition signed by nearly 2,000 voters will be presented, asking council to rescind its recent action, and compel the Street Railway Company to build its line according to the original franchise, which provided for a Pleasant Heights extension.

The petitioners contend that the company, in asking that an ordinance be prepared carrying out its expressed wish, has made it necessary that council show by a vote whether it represents the street railway corporation or the people. They say that a line up Pleasant Heights would not be nearly so dangerous as the line now in operation on the Calcutta hill, and even if it would be more dangerous they claim that as long as they are willing to run the risk of riding over the road, it is not the part of the company to offer protests.

A part of the petition reads: "If the request of the company be granted, what will it lead to? Would it not form a precedent under which other requests of similar nature might be granted? We believe that, rather than abolish these hill lines, the company should be compelled to construct them so that they can be operated with safety to their patrons."

Each member of council received today a letter from George W. Ashbaugh, a representative of the Pleasant Heights residents, stating in part: "Almost every one we have been able to see has gladly signed our petition and the only reason we cannot obtain the signature of every resident of the city is that we lack the time to see them. The down town residents see the justice of our claim."

HAD BEEN THERE BEFORE

And James Dillon Knew What to Expect From the Mayor—A Tramp Bounced.

Smoky row gave forth two more "jags" last evening and the couple constituted the complement before the mayor this morning.

James Dillon, who has before heard "\$1 and costs or \$5.50 in all," was approached by Officer Saulsberry in the upper end of the notorious district. James is a bricklayer by trade and works occasionally, but has been feeling bad of late, and in his attempt to drown his troubles in the face of the flowing bowl met disaster. The mayor sang to him the familiar song and after pleading guilty and arranging to swell the city's coffers he was released.

Officer McDermott thought that he had run into a circumstance when he met James Smith in the extreme lower

end of the row. Smithy bucked when first addressed by the officer but when a club was flourished over his shadow he decided to go peaceably to the sleeping apartments provide by the city.

"My home is wherever I stop," he said to the mayor, "and my occupation is similar to that of a retired capitalist. I am an officer of high degree in the national lodge of the Sons of Rest."

"Leave the city within ten minutes," replied his honor, "or on the afternoon train you will ride to Canton, where you will remain in the Stark county workhouse for one year."

Smith was an old-timer and with a graceful bow thanked his honor and bade adieu to the city.

TRYING TO FIND MISSING HUSBAND

MRS. DANIEL STUTLER FEARS SHE IS DESERTED.

Says They Always Lived Happily Together And Can't Account for His Absence.

When Daniel Stutler left this city for some western town Saturday morning he did not tell his wife, formerly Miss Nan Green, that he was going, or what would be his destination. Mrs. Stutler says there is a woman in the case, and yesterday spent the entire day trying to find the whereabouts of her lost husband. In doing so she lost a day's work, as she is a finisher employed at the Cartwright pottery. Mr. Stutler was employed as a presser at the Buckeye, and his wife states that yesterday he had a position to go to work at the Diamond, making ewers.

Why he left his happy home, Mrs. Stutler was unable to say, for they always lived in peace, she stated. "I am at a loss to account for his actions. I loved that man," said Mrs. Stutler to a reporter, "and I have been told that he had been talking very much to another girl, and that before he left the city he told her that just as soon as he was located he would advise her."

"I don't propose to ask for a divorce, for that would be a pleasure that I will deprive him of. Our little home at 248 Second street was like a dove's nest, furnished nice and we always got along well together. I never thought he would leave me in the manner he did, and I propose to hunt for my husband until he is found."

Mrs. Stutler is well known in this city, and has always been a hard worker. Her work has always been in the potteries, and she was one of the first to obtain employment in the Taylor, Lee & Smith plant at Chester when that pottery was started. Later, however, she left that plant, and has been since employed at Cartwright's, where her record as a hardworking woman is well known. Mrs. Stutler has enlisted the services of friends and proposes to find her wayward husband if it is possible. She is of the opinion that he went to Steubenville Saturday on the excursion, but she does not know this to be a fact.

DAMAGE SUIT SETTLED

Action of Miss Martha McKinnon vs. East Liverpool Railway Disposed Of.

Lisbon, May 27.—(Special)—The case of Mrs. Martha J. McKinnon against the East Liverpool Street Railway company has been settled at defendant's cost.

The case was for \$10,000 damages, which plaintiff claimed was due her for injuries sustained in a street car accident.

Four Games Booked.

The Crockery City Junior team will play two games on Decoration Day, in the morning with a Chester aggregation and in the afternoon with the Carroll club juniors. On Saturday they will play two games at the school picnic at Rock Springs park—one with the Y. M. C. A. juniors and the other with the Columbia cadets.

Emeralds Downed, Again.

The Fourth Street Athletic club played havoc with the Emeralds yesterday afternoon. Every member of the former team swatted the ball to his heart's content and the onslaught resulted in their scoring 14 runs while the Emeralds were held down to a couple. The batteries were Smith and Kauffman; Gaston and Yontz.

BIG CONVENTION IN FULL BLAST

Contest For Judgeship Apparently Narrowed Down to Four Candidates.

JUDGES CREW AND NORRIS

Are Both Showing Great Strength. Who Will Land the Prize Doubtful. Food Commissionership Likely to Go to Cleveland.

Cleveland, May 27.—(Special)—The Republican convention is in full blast, and is a big enthusiastic gathering. The contest for supreme court judge seems to have narrowed down to four candidates — Judges Summers, of Springfield; Crew, of McConnelsville; Norris, of Youngstown, and Phillips, of Cleveland. Crew is said to be Hanna's choice and appears to be a favorite, though Norris is developing great strength and likely to gain more.

Edward A. Batt, of Cuyahoga, and Horace Ankeny, of Green county, are in the lead for dairy and food commissionership, with Batt ahead. It is believed Cuyahoga will not press Judge Phillips' candidacy for the bench, in order to land the dairy and food commissionership. Mr. Batt expressed the strongest confidence of success.

Hon. R. W. Taylor is here and is looked upon as a coming gubernatorial candidate.

The convention proper will get down to business about 4 p. m.

The Eighteenth district delegation including Stark, Columbiana and Mahoning will caucus at the Kennard at 2 p. m. to perfect its organization. E. W. Hill and H. W. Smith, of East Liverpool; G. V. Sharp, Samuel Buell, of Salem; Reuben Hull and I. B. Cameron, of Sallineville; J. F. Adams, of Lisbon, are all here.

Colonel John N. Taylor and W. L. Smith were here last night and announced their intention of returning home this morning.

T. L. Potts, formerly of East Liverpool, is a prominent member of the Cleveland reception committee. The hotels are crowded.

A SAD DEATH

BROTHER OF AN EAST END MAN KILLED AT PITTSBURG.

The Two Had Never Seen Each Other. The Dead Man on His Way to This City.

A few days ago Archie Putnam received the glad word that he would receive a visit from his brother, whom he had never the pleasure of seeing. In fact his brother was to have arrived at the home of Mr. and Mrs. Putnam last evening, but the sad message was received late during the afternoon by Mr. Putnam that his brother had been killed and was now at Pittsburg. Mr. Putnam's brother was named Joseph and was much younger than Mr. Putnam is. In early life, Mr. Putnam came to this city, and after he had left the home of his mother his brother was born, and since that time he has not had the opportunity of greeting him.

The brothers had been corresponding with each other for some time, and at last arrangements were made whereby Joseph Putnam was to visit his brother in the East End. But it seems fate was against the proposed visit, and instead of the expected pleasure in the home of Mr. and Mrs. Putnam there is sorrow.

While he was at work yesterday afternoon a telegram was taken to the home of Mr. Putnam on High street, which read that Joseph Putnam had been killed by cars at Pittsburg, and from letters found on his person, he was on his way to his brother's home in the East End. This message was signed by "O'Meara," and at 5 o'clock this morning Mr. Putnam left for Pittsburg to claim the body.

This morning a News Review reporter called at the home of Mr. Putnam, but no answer was made to repeated knocking at the door of the home. There are very few persons in the East End who know anything about the case.

M. E. CONFERENCE IN BUSY SESSION

Fifty-Eighth Meeting Held at the
Erie Street Church Large-
ly Attended.

BUSINESS OF IMPORTANCE

Much Has Already Been Attended to
and the Sessions Are Growing in
Interest—Attractive Program Ar-
ranged.

The first meeting of the fifty-eighth session of the Steubenville district conference of the M. E. church was held last evening in the Erie street M. E. church. This was the signal for a large attendance, and the little church was filled, it being estimated that no less than from 250 to 300 persons attended the service. The meeting was quite a successful one, and at the same time very interesting. There was a large representation of the laity, which shows that the services were of interest to all.

The conference was called to order by the presiding elder, Rev. Dr. C. E. Manchester, of Steubenville. There was a short song and praise service at the opening, this being under the direction of Rev. S. P. Lloyd, of Wintersville, Jefferson county.

The devotional exercises were in charge of Rev. J. A. Wright, of West

Bridgeport, and following this the organization of the conference was commenced by the appointment of Rev. E. T. Mohr, of Toronto, permanent secretary.

This business occupied but a short time, and was followed by an address by Rev. J. S. Reager, of Steubenville, upon the subject, "All Hail the Power of Jesus' Name." The address was very effective and one of the best thus far made at the conference. This address was followed by an altar service which was in charge of Rev. Dr. Clark Crawford, of the First M. E. church, of this city.

There was also present at the meeting W. L. Dixon, business manager of the Pittsburgh Christian Advocate, but it is not likely he will remain here during the entire conference.

The choir, which is composed of Revs. S. P. Lloyd, J. O. Davidson, E. T. Mohr and A. W. Gruber, will have charge of the music.

The second session was opened this morning at 6:30 o'clock by a sunrise praise meeting, which was quite well attended. This meeting was in charge of Rev. J. O. Davidson and this was followed by a short business session. "The Church Service," a symposium, occupied the balance of the morning.

Business matters are to be considered at the afternoon session, and the time and place of the next district

conference will be looked after. The closing session of the conference will be held this evening, commencing at 8 o'clock when the following program will be rendered:

Evensong, J. A. Rutledge; report of missionary conference, J. V. Orin; "The Church at Work: A Symposium"; (1) In the Sunday School, T. F. Phillips; (2) In the Epworth League, E. T. Mohr; (3) In the Prayer Meeting, G. T. Humble; (4) In the Home, A. R. Chapman; minute business; consecration, C. E. Manchester.

During the morning the examining committees met in the Second Presbyterian church on Virginia avenue, where a number of younger preachers were examined. These committees were composed as follows and their work will be completed this afternoon:

License to Preach—J. V. Orin, C. E. Clark; H. M. Rader.

First Year—S. P. Lloyd, J. F. Ellis, E. S. Smith.

Second Year—G. T. Humble, J. A. Rutledge, D. B. Cope.

Third Year—Clark Crawford, N. B. Stewart, J. O. Davidson.

Fourth Year—T. F. Phillips, A. W. Gruber, J. H. Conkle.

MISTAKE SOMEWHERE.

Why the Colonel Stopped His Score of Chinamen at Five.

"I had read," said the colonel as he was relating some of his experiences in China, "that if a person fell into the water no one could pull him out, holding that his falling in was a decree of Providence that must not be interfered with."

"One day on one of the canals I stumbled and went overboard, and, although there were twelve boatmen, not one of them would extend me a hand. After a close shave, as I cannot swim, I got aboard again, and as soon as I recovered my breath I yelled at the boss boatman:

"You infernal scoundrel, but why didn't you help me out?"

"It was your 'ate to fall in," he calmly replied.

"And it's your fate to take a good licking," I said as I went for him.

"When I had finished him off, I took another, and I was just polishing off my fifth victim when the sixth man halted me to say:

"There seems to be a mistake here. We are taught that if a person falls into the water he must save himself or drown, but we are not taught that if he does save himself he is at liberty to lick half of China in revenge."

"I thought his point well taken," laughed the colonel, "and I stopped my score at five and went down to change into dry clothes."—Boston Globe.

ORCHARD AND GARDEN.

The average life of raspberry plantations is about six years.

With grapes the rule should be to dig deep and plant shallow.

For rooting the best cutting of a plant is a shoot of new growth just before it grows woody or at all fibrous.

Trees about the house make it more attractive and homelike, besides shielding it from the cold winds of winter and the hot suns of summer.

Cut the young trees back when placing them in the ground and also trim off some of the roots, especially those that are bruised or broken in any way.

Fruit trees cannot thrive on all kinds of exhausted soil. The trees will make a growth of leaves and wood on poor land, but they require mineral manure to perfect the fruit.

In most cases when planting shade trees the hardness of the trees should be given preference over rapid growth. It is of no advantage to secure a shade tree early only to have it die when most useful.

The Palate Lock.

A woman who had solved the servant girl question by importing a buxom young colored girl from Virginia went out to give her orders for dinner one day and was astounded to see the negro sitting on the floor with her hair, or wool, standing out around her head in a black and shiny nimbus. Not hearing the approach of the mistress, the servant went on with her occupation, which was pulling first one curly lock and then another in a way that suggested that she had either lost a fortune or "got religion." The madam stared a moment and then exclaimed: "For goodness' sake, Betty, what are you doing?"

The maid hurriedly scrambled to her feet and answered: "Oh, nothin', ma'am. I've got a sore throat and was just tryin' to find the lock what would pull mah palate up and cure the tickle."—New York Times.

O'BRIEN IS CONTRADICTED.

Captain McDonald Says No Spanish
Woman Was Abused by Any
American Soldier.

Washington, May 27.—Fred McDonald, of Charlestown, Mass., formerly a captain in the Twenty-sixth volunteer infantry, appeared before the senate committee on the Philippines yesterday.

Senator Lodge quoted from ex-Corporal O'Brien's testimony to the effect that he had witnessed the administration of the water cure to the presidente of the town, while the officers were present. He asked Captain McDonald whether O'Brien was present on that occasion.

"He was not," replied the captain. "It can be proved from the records that O'Brien was on that day at San Joaquin, 30 miles away."

The witness was present when the water cure was administered and it was the only incident of the kind that he knew of during the whole service of 20 months in the Philippines.

Chairman Lodge then read the testimony of O'Brien with regard to the alleged abuse of a woman.

"No such circumstance ever occurred in that town or any other Spanish town of which I had charge," replied the captain. "It is a lie from beginning to end, and I have never known of any Spanish woman being abused by an American in the Philippines."

Senator Lodge then read O'Brien's testimony to the effect that at the town of San Joaquin, at the wedding of the presidente's daughter, the American officers, including Major Cook and Captain McDonald, got drunk and forced the women to dance with them.

"My command of the vocabulary of the English language is not sufficient to characterize that statement properly," declared Captain McDonald. "It is a deliberate lie. Major Cook was on duty at Jaro, a town 60 miles away, on that day and I was on duty at Migaon, as can be proved by the records."

With reference to the charges of misappropriating the company funds he said that the captain of a company never handled the money of the commissary department, so that he would not have had the opportunity to appropriate it even if he had so desired. O'Brien, he said, had had trouble with officers and men of his company from the time he joined until he left. He related instances of bad conduct on the part of O'Brien which had got him into trouble.

PATTERSON MADE SPEECH.

Claimed He and Paper Consistent on
Philippine Question.

Washington, May 27.—Mr. Patterson, of Colorado, one of the minority members of the Philippine committee of the senate, occupied the floor most of yesterday, in a discussion of the Philippine question. Mr. Patterson quoted from the utterances of his newspaper, the Denver News, to show that it consistently had advocated the independence of the Philippines since December, 1898.

He said the editorials quoted by Mr. Foraker some days ago had been written prior to that time. He discussed the whole Philippine question, and several lively colloquies occurred during the speech. Mr. Foraker and Mr. Hoar had a brief debate over President McKinley's proclamation to the Filipinos. Sixty-two private pension bills were passed.

HOME MISSION WORK.

Baptist Society Selected Officers, at Convention, in St. Paul.

A MESSAGE SENT TO PALMA.

Congratulated Upon the Auspicious Opening of Cuban Republic—Society Closed Convention With Open Parliament.

St. Paul, May 27.—"Mission Work Among Scandinavians" was the general theme of the American Baptist Home Mission society's session yesterday. "Foreign Invasion of New England" was the subject of an address by Rev. D. B. Meeser, of Michigan. Minor business closed the morning session.

The nominating committee yesterday afternoon made the following recommendations, in part, for officers for the ensuing year: President, E. M. Thresher, Ohio; vice presidents, Andrew McLeish, Illinois; I. E. Gates, New York; auditors, Edgar L. Marston, New York; L. F. Requa, New York, corresponding secretary, Thomas J. Morgan, L.L. D., New York; also board of managers.

The report of the committee on nominations was adopted. There is no change except for the election of Mr. Gates as vice president, succeeding Vice President Estey, deceased, and the elections to fill vacancies on the board of managers.

The following message was ordered cabled to Hon. T. Estrada Palma, president of the Cuban republic, at Havana:

"The American Baptist Home Mission society, in session at St. Paul, congratulates you upon the auspicious inauguration of the Cuban republic and prays the blessing of God upon your administration."

The cablegram was signed by President Thresher and other officers. The society closed its anniversary last night with an open parliament upon the subject of missions.

LOS ANGELES GETS ASSEMBLY.

The Pacific Coast City Had 287 Votes to 149 For Cleveland.

New York, May 27.—The next general assembly of the Presbyterian church will be held in Los Angeles, Cal. This was decided upon by the commissioners yesterday when they cast 287 votes for the Pacific coast city against 149 for Cleveland, O.

At the moment when the moderator called for a vote on the question a member of the assembly, who refused to give his name, but who was said to be an elder from Cleveland, made the statement that a railroad had conducted a lobby in favor of Los Angeles among the commissioners. The moderator declared the Cleveland elder out of order. Elder Ernest E. Baker, from Oakland, Cal., said that the man referred to as a lobbyist was a member of the assembly, who had a perfect right to be on the floor of the assembly.

Previous to selecting the next place of meeting the assembly took up the

report on ministerial relief and adopted it. It includes a provision for closing of the home for aged ministers at Perth Amboy, N. J.

The assembly acted adversely on an overture from the presbytery of Los Angeles requesting that ministers coming from the Southern Presbyterian church be honorably retired with the same privileges as if they had served always with the church under the general assembly. The matter came before the assembly in a report from the committee on ministerial relief, which recommended adverse action.

The Rev. Dr. Thomas Perry, of Wilkesburg, chairman of the committee, said it would open the door for ministers of other denominations to come to the Presbyterian church and claim the same privileges as the ministers who had served the general assembly all their lives.

The Rev. Dr. Benjamin L. Agnew, of Philadelphia, corresponding secretary of the board of ministerial relief, spoke in the same vein. "When the Civil War was closed," he said, "I would have been willing to vote for the union of the two churches. But I am entirely opposed to holding out any money consideration to win them over. When they will come over to us on principle they will have the same privileges as our members."

The Rev. Dr. George L. Shearer, of the American Tract society, then made a brief report of the society's foreign work.

The Rev. Dr. David G. Wylie, of the Scotch Presbyterian church, of New York, then offered a resolution providing that a collection for the tract society be taken in every Presbyterian church during the coming year. The resolution was adopted. Another resolution adopted called on the presbyteries to vote promptly on creed revision.

By unanimous vote the assembly decided to send fraternal greetings to the new Presbyterian church of Mexico, organized last year, which adopted the constitution of the general assembly of the Presbyterian church of the United States of America. Five minutes was also spent in prayer for the new church.

Stated Clerk Dr. Roberts read a list containing the names of 128 Presbyterian ministers who had died since the last assembly.

A resolution of thanks to the American Bible society was then adopted. The Rev. Dr. Taylor, of Rochester, read general resolutions of thanks, which were adopted, in which the Presbyterians of New York city, Moderator Van Dyke, Vice Moderator Noyes, the stated clerk and the Pennsylvanians were mentioned.

Dr. Van Dyke, James Yeerance, chairman of the hospitality committee, and the Rev. Dr. J. Ross Stevenson made brief addresses.

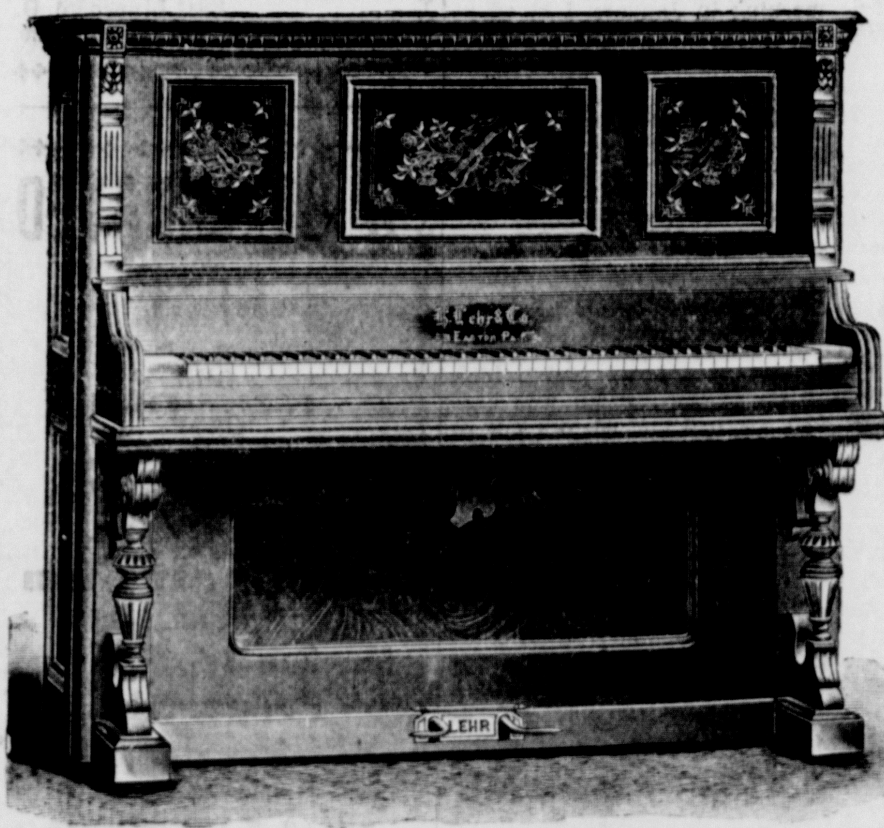

Dr. Stevenson asked the Presbyterians to do their best for New York, where only 8 per cent of the population are evangelical Christians.

The minutes were then read, the moderator pronounced the benediction, the doxology was sung and the general assembly was declared adjourned sine die.

The moderator, in declaring the ad-

jourment, referred to the unanimity in the action taken by the general assembly, including the revision of faith.

"I should not care for the revision of creed," he said, "if I did not think it would lead to an era of evangelical work greater than any other in the history of our church."

FRENCH SAW THE FALLS.

Rochambeau Greet a Priest and Lady, Whom They Had Met Before.

Buffalo, N. Y., May 27. The members of the French mission who participated in the ceremonies incident to the unveiling of the statue of Count de Rochambeau at Washington, accompanied by Ambassador Cambon, Mme. Cambon, members of the staff of the French embassy and the president's commission, spent a pleasant day at Niagara Falls and again turned toward the east, leaving for West Point at 5 o'clock yesterday afternoon over the West Shore railroad.

Just before the departure of the train for the east a bevy of girls, dressed in white, presented Countess de Rochambeau a large bouquet of flowers, sent by the sisters and pupils of the Sisters of Mercy convent.

The Very Rev. James A. Lanigan, of Buffalo, and Miss Flore Reche, of Rochester, who were among those who received the Marchioness de Rochambeau on the occasion of a visit to the Falls 10 years ago, at the time of the Yorktown celebration, made themselves known to the count and countess, who greeted them cordially and spent five minutes in animated conversation with the venerable prelate.

HON. H. C. MCCORMICK DEAD.

Former Congressman and Ex-Attorney General of Pennsylvania.
Last Illness Brief.

Williamsport, Pa., May 27.—Hon. Henry Clay McCormick, former congressman from the Sixteenth Pennsylvania district for two terms, and attorney general during the administration of Governor Hastings, died at 2:10 o'clock yesterday afternoon. The cause of death was acute Bright's disease, complicated with blood poisoning. Mr. McCormick's illness was of less than a week's duration, as only last week he was at Senator J. Henry Cochran's country home in Virginia and he attended to business after his return.

Many messages of regret have been received by the family from all over the state. Immediately following the announcement of his death there was a general tolling of bells throughout the city.

The funeral will take place on Thursday afternoon.

FINE PAINTING OF M'KINLEY.

Attempt Will Be Made to Have It Bought For White House.

Washington, May 27.—A number of the friends of Senator Depew yesterday were invited to his residence to view two portraits by Muller Ury, one of Mrs. Depew and the other of the late President McKinley.

That of Mrs. Depew is pronounced by art critics to be most lifelike, while the portrait of the late president, which is life size and which was finished just before his death, is regarded by Secretary Cortelyou and General Corbin, who visited the senator's residence yesterday, as marvelously correct. It is understood that Senator Depew, Senator Hanna and others will make an effort to have congress purchase the painting for the White House.

The orders of Secretary of War Root directing that Captain Harry E. Smith, of the coast artillery, on duty at Fort McHenry, Maryland, be tried by court-martial for drunkenness is a timely warning to army officers who are addicted to alcoholism and is significant of a vigorous policy upon this question that will have the approval of the entire country. Drunkenness and military discipline are absolutely incompatible. Military regulations prescribe severe and sufficient penalties for the offense and should be strenuously and constantly enforced upon all officers and privates alike, and the present head of the war department evidently intends to see that this is done.

The East Liverpool police have made some effort in the direction of cleaning the streets and sidewalks of obstructions in the shape of barrels, boxes, rubbish and litter unlawfully placed there. But there is plenty of work ahead in this line, and they should be encouraged to keep at it until the streets of East Liverpool are in the condition that a city's streets should be. The city ordinances on the subject are violated to an extent that would be tolerated nowhere else. No reason exists why it should be tolerated here.

In response to a general movement on the part of all Protestant churches, the Presbyterian general assembly adopted a resolution, favoring a union of religious denominations for the purpose of securing uniformity in divorce laws and restricting the divorce evil. The Presbyterian church is a powerful organization, and if it devotes itself to this task, co-operating with other great religious denominations, a genuine reform, long needed and earnestly desired by the Christian world, is not only possible, but probable.

Senator Stewart, of Nevada, who was present at its birth and who has watched the growth of the child with jealous care, now declares that the silver issue is dead and buried. POTTERY NEWS

The interesting story of a meeting of the boss potters early last week and the later conference with T. J. Duffy, of the National Brotherhood, was told last night, and by a person who is close in the confidence of these people. It is stated that the meeting of these bosses was held in the office of a hill pottery, and as all were members of local union No. 25, matters pertaining to this part of the trade as considered by the recent convention were gone over. It is even said that some of the men at this meeting talked of withdrawing from the local, but advice against this was given, and it might be said, heeded, for no withdrawal cards were asked for by those at the bosses meeting at the session of the local. It is also claimed that, from those at the meeting of the bosses a committee composed of William Swindells, Lysle Ashbaugh, O. H. Boughton, Oliver French and Edward Hargraves was appointed to confer with Secretary Duffy about the contract abolishment. The result of this conference could not be learned. It was not long since a boss potter made the remark that it was of little difference to him whether the contract system was enforced or not, as he paid all the men under him a day wage of \$2.50, and there was one workman who was being paid at the rate of \$3 per day. Matters, it seems, are assuming an interesting phase in this trade.

James Simpson, well known in this city as foreman of the new sanitary shop at New Castle, who was in the city last week, made quite a raid upon some pressing shops. This was shown by the fact that yesterday morning no less than four presses left the city to start work at New Castle. They were Ralph Woods, of the Diamond; C. J. Shraland, William Salt and T. W. Kirkham, all of the Wallace & Chetwynd shops. These men took trunks well filled with clothing, and this would indicate that the workmen propose to make New Castle their homes. One of the parties took his family with him.

A sensation was created at one of the East End potteries not many days ago, over the actions of one of the male employees. It seems that this individual, who has a family to support, devoted much of his time to one of the girls in another part of the factory, who supposed the man to be unmarried. In fact, the visits to the girl became so noticeable that when the officials of the plant became aware of the actions of the man, they brought matters to a sudden stop. Although both parties are working, both are paying more attention to business and less to each other.

Much talk is now being heard about the annual Brotherhood picnic, which is to be held at Rock Springs park next Monday. In some of the shops it is the main topic, and it is doubtful if there will be a pottery working man in the entire city on that day. Of course all expect to visit the park on that day, and some of the shops will likely be enabled to work up to noon, after which they will devote the balance of the day to outdoor pleasures. Assurances are given that the outing will undoubtedly be the largest ever held by the Brotherhood.

Local No. 23, printers and transferers, held an interesting meeting last evening, when a committee was appointed to arrange a scale of prices for piece work which will be submitted to the executive board of the Brotherhood before the annual conference with the manufacturers is held next month. This is a part of the work that was passed upon by the Trenton convention. Three new members were obligated at this session, and five applications for membership were received.

Fred Pennington, who has been employed at the C. C. Thompson plant for a long time, having resigned, the position has been filled by Enoch Riley, of Chester, who for many years was employed at the old Sebring plant on Second street. Mr. Pennington is now located at Laughlin No. 2.

William Anderson, employed as a jiggerman at the Taylor, Smith & Taylor pottery, Chester, has been appointed secretary of jiggermen's local No. 12, to fill the unexpired term of Walter J. McKeone, who resigned the office on account of having taken a position at Peoria.

John T. Wood, statistician of kilnmen's local No. 9, was to measure one of the new biscuit kilns at the new Laughlin addition this afternoon. A report will be made to the firm at once, and at a meeting of the local to be held two weeks hence.

Brother Brown, as he is known by many of the crockery salesmen of this city, has returned from a short trip for the Dresden. He had quite a successful jaunt; in fact, he usually has.

At the last meeting of packers' local No. 25, William Swindells, boss potter at Thompsons', resigned as one of the

trustees of the local on account of ill health. The vacancy was filled by the appointment of John Tolbert, of McNicols'.

Not much talk is being heard now relative to the kiln firemen organizing a local. It seems there is little interest being taken in this matter, though it has been frequently talked over by some of the firemen.

A meeting of the committee composed of Major Adams, LeRoy Orr and Shel. Moore was held at Brotherhood headquarters last evening for the purpose of talking over matters relative to the annual picnic.

Charles Surles, one of the popular salesmen of the D. E. McNicol plant, left Sunday evening for a trip through western Ohio, Indiana and Illinois. He will be gone for several weeks.

James Miles, who has been employed at the Sebring potteries for a long time, has again returned to the East End, and can now be found at the new Laughlin addition.

Some Trenton potteries are said to have among their employees many boys and girls under the age allowed by law, and an investigation is talked of.

Edward Hutton, a printer, resumed his bench at the Chetwynd plant this morning after being ill since he returned from the Trenton convention.

Sagger makers' local No. 16 held a meeting last evening but nothing other than the routine business was considered.

Miss Nell Wells, of this city, has gone to Steubenville to be a stenographer at the Steubenville pottery.

The American Clay company, of Augusta, Me., has been chartered with \$300,000 capital.

The Potters' Co-Operative company is enjoying a nice trade as it has all season.

Bismarck on Champagne.
Years ago, when Baron Hengelmüller was assistant secretary of the Austrian embassy at Berlin, Bismarck gave a dinner to which the baron was invited. All the guests except Von Hengervar drank champagne, and Bismarck, noting the young man's abstinence, asked the reason therefor.

"I have not yet earned the right so to indulge," he replied.
"Ah, that will not do," remarked Bismarck; "it is allotted to every able-bodied man in this world to consume in his lifetime 10,000 bottles of champagne. So you should begin now lest you fail to secure your just portion."

"If 10,000 bottles be the allotment for the ordinary man," responded the young diplomatist, bowing to the Iron Chancellor, "your excellency, being an extraordinary man, should have double allowance, and I therefore take great pleasure in awarding my share to you."
"I thank you," Bismarck replied, "but permit me to inform you that without waiting for your grand renunciation I have already passed the 20,000 mark."

She'll Sing Hereafter.

A charming young lady of Kensington who glories in the possession of a wealth of bright auburn colored hair is the teacher of a Sunday school class. On a recent Sabbath the rector made the announcement of a hymn to be sung and, rising, waved his hands, and the organ pealed forth.
"Now," said he, "ready—sing."
A small and precocious youth in the young woman's class said:
"Why don't you sing, Miss Frisbee?"
"Me? Oh, I never sing," replied the teacher, smiling her prettiest.
"But," exclaimed the boy, "the minister says you must. Didn't he just say 'Now, Reddy, sing?'"
Smelling salts and numerous other restoratives had to be used to bring the teacher out of her faint.—Philadelphia Telegraph.

Choleric Versus Quiet Natures.
Clarendon, says The Schoolmaster, made careful observation when he wrote: "Angry and choleric men are as ungrateful and unsociable as thunder and lightning, being in themselves all storm and tempests; but quiet and easy natures are like air weather, welcome to all and acceptable to all men; they gather together what the others disperse and reconcile all whom the others incense; as they have the good will and the good wishes of all other men, so they have the full possession of themselves, have all their own thoughts at peace and enjoy quiet and ease in their own fortune, how strait soever it may be."

HARDENED TO COLD.

Natives of Siberia Don't Mind a Be-
low Zero Temperature.

Frequently, when we could not expose our ears for two minutes without having them frozen, says a traveler in Siberia, the natives would go for an hour at a time with their heads thrown back from their heads, and when it required constant watchfulness to keep our noses from freezing they did not appear to notice the temperature at all. One morning in January I stood in perfect amazement at their disregard of the low temperature. They worked for at least half an hour with bare hands packing up the tent and utensils, handling the packages and lashing them together with icy seal thongs without experiencing the least apparent inconvenience, while I partly froze my fingers striking a light for my pipe with a flint and steel, the whole operation taking not more than three minutes.

The night before, happening to go out of the tent after our men had retired, I passed their camp, which was near by. Their fire had burned to a pile of embers, barely affording me light enough to distinguish the sleepers. They were lying coiled up on small deer skins, with their backs to the embers and their fur coats thrown loosely over their naked bodies.

The coat of one of them had slipped almost entirely off his body, leaving his back and shoulders exposed to a temperature of 18 degrees F. below zero, and, though his hair was frosted, he snored as soundly as if in comfortable quarters.

The United States and all its possessions and all Europe except Russia could be put into Siberia, with hand enough left to make thirty-five states like Connecticut.

PROGRAM ARRANGED

OF THE EXERCISES FOR MEMORIAL DAY CELEBRATION.

Officers Appointed And the Route of the Procession Fixed—Business Will Suspend.

A meeting of the Henry Cope post, G. A. R., was held last evening in Aten's hall on Main street. Arrangements were perfected for the carrying out of the Memorial day program.

The following officers will be in charge of the exercises: General J. W. Riley, master of ceremonies; T. A. Lloyd, chief marshal; G. B. Aten, officer of the day; Dr. W. S. McFarland, aid; W. C. Fraser, Prof. J. L. McDonald, T. L. Apple, aids in charge of the schools.

Following is the route of the procession: Column will form on public square, head of column south. Bready to move at 8:30 prompt, standard time, and move over the following route, halting at Ninth street, where the children of the schools will join; down Main street to Tenth street, to cemetery; returning up Tenth to Commerce street, up Commerce to Ninth street, Ninth to Main, to G. A. R. hall, where it will be dismissed.

The executive committee have requested all merchants to close their places of business and attend the exercises.

BRICKLAYERS ARE SCARCE

This Is Delaying the Completion of the New Champion Clay Plant.

The new Champion brick works company is at present experiencing considerable delay in the construction of its new buildings, being unable to secure bricklayers. The foundations for all of the buildings have now been completed and but very little can be done until the bricklayers have performed their part of the work.

T. H. Silvers, who is at the head of the works, stated this morning that he had tried everywhere to secure the services of bricklayers, but had been unable thus far to find but very few, all seeming to be engaged for the next two months. If enough can be secured within the next week to go ahead with the work it is thought that the whole plant will be completed and in operation by the latter part of July or the first of August.

A carload of machinery has already arrived and more is on the road and expected any day.

BOWLING CONTEST

An Exciting Series of Games Expected in Wellsville Tonight.

An exciting bowling contest is anticipated this evening by local bowling enthusiasts between the Imperials of East Liverpool and Captain Shingler's team, of this city.

Several contests have been held heretofore between these two teams and they have proven to be well matched, each having won one contest and tied one. At the contest last Tuesday evening at East Liverpool, Wellsville was defeated three straight games, much to the chagrin of local players.

As the Wellsville team has always defeated the Imperials on the local alleys, it is thought the same program will be in effect this evening.

The local team will be composed of the following players: Shingler, Harsha, Hall, Aten and Karr.

POTTERS' PICNIC

Local Union No. 24 Will Run an Excursion to Silver Lake June 16.

Announcement has been made of the first grand picnic and outing to be given by local union No. 24, N. B. of O. P., at Silver Lake Monday, June 16. A special train has been ordered for the occasion and a large crowd is anticipated.

The train will start from East Liverpool, leaving there at 6:30 a. m. and taking on excursionists in this city, Irondale, Salineville and Alliance. Returning the train will leave the lake at 8 o'clock in the evening. The low rate of \$1.25 for the round trip has been secured.

C. B. SMITH FOR COUNCIL

Nomination Made Last Evening By Fourth Ward Republicans.

The Republicans of the Fourth ward held a conference last evening in the hose house and nominated Charles B. Smith for councilman to take Mr. Glaser's place, who resigned at the last council meeting on account of having moved to the Fifth ward and being therefore unable to remain in council.

Mayor Fogo has ordered a proclamation of election to fill the vacancy on June 10, between the hours of 5:30 a. m. and 5:30 p. m. As the vacancy is a hard one to fill, it is thought that the Democrats of the ward will not make any nomination and Mr. Smith will therefore have a clear field.

Board of Education Met.

A regular meeting of the board of education was held last evening in the high school building on Ninth street. The regular monthly bills were read and ordered paid. Aside from this no business of particular importance was transacted. The commencement exercises were discussed by all of the members of the board.

Two Arrested And Fined.

W. H. Patell was arrested last evening for being drunk and disorderly and was given a hearing this morning before Mayor Fogo and fined \$4.60. Albert Johnston, of Wellsville, was arrested last evening by Railroad Detective Moore for train jumping and when brought before the mayor this morning was also fined \$4.60.

Health Board Meeting.

The new board of health will hold its regular monthly meeting this evening in the mayor's office, at which time it is thought that the new rules of the board will be presented and ordered printed. The board will order 1,000 copies of the book of rules, which will be distributed over the city.

A College Man and a Quotation.

Some one once said, "A Harvard man knows all literature but the Bible," a startlingly sweeping generality, but not without truth so far as the Bible is concerned. A case in point came to light the other day. Two Harvard men were reading together some famous modern orations, one of them a eulogy. The eulogy closed with the words: "O death, where is thy sting? O grave, where is thy victory?"

"What a beautiful close!" exclaimed one of the students enthusiastically. "The man who wrote such a sentence as that proves that the grand style in prose did not die with the eighteenth century."

It should be added in fairness that the other student was a churchman and said nothing.—New York Tribune

IN THE OIL FIELD

E. A. Freshwater Has a 100-Barrel Producer—Other New Wells.

E. A. Freshwater last week drilled in another good oil well on the Carson lease, near New Cumberland. The well is good for 100 barrels. It filled up 1,000 feet with oil as soon as it was drilled in and there is 24½ feet of sand.

A number of new rigs are now up and considerable drilling is expected for this summer. The prospects are bright for several good producers.

Drilling has been commenced on the Robinson farm and some good producers are expected to come in.

Murray & Miller, who had their pumping power broken recently in their fields near New Cumberland, have had it repaired.

The Carson pool is at the present time a scene of activity. Four crews of rig builders are now at work building new rigs.

DISORDER AND PROFANITY

Caused John McBee to Be Arrested at the Park and Fined.

John McBee was arrested last evening at Rock Springs park by Park Police-men Hassey and Smith for acting disorderly and using profane language too freely.

When given a hearing this morning before Mayor John Shradler he was fined \$5 and costs, which he paid and was released.

This is the first arrest which has been made this summer from the park, but it is expected that as soon as the picnics commence many arrests will be made.

NEW ROAD ACCEPTED

Better Than the Old and It Cost the County Nothing.

The new county road built by the owners of Rock Springs park to take the place of the road which now runs through the hollow in the center of the park property was inspected by the county commissioners Saturday and has been accepted. The space in the hollow will be utilized for a lake. The new road is thought to be much better than the old one and was built without any expense to the county.

Assyrian Seals.

The ancient Assyrians nearly 6,000 years ago put in moist clay their seals, engraved in intaglio upon precious stones, on chests and doors. In order to prevent their being opened. There were no locks or keys in those days. If they wished to send a private letter, they would often seal it with a hippogriff, which fabulous winged horse was regarded as the emblem of secrecy. Centuries later the Greeks and Romans adopted similar devices for the same purpose.

"Thomas, I cannot think how it is that our church should be getting thinner and thinner, for I am sure I preach as well as ever I did and ought to have far more experience than I had when I first came among you."

"Indeed," replied Thomas. "I'll tell you what; old parsons nowadays are just like old tailors, for I'm sure I sew as well as ever I did in my life, and the cloth is the same, but it's the cut, sir, ah! it's the new cut."—Pearson's.

EAST END

ARE UP IN ARMS

Residents of East End Propose to Ask Council to Stop Garbage Nuisance.

The residents of the East End propose to go before council and, if possible, find if there is a remedy whereby the dumping of garbage along Lake's run, in the rear of the powder house of the American Sewer Pipe company can be stopped.

Last week this matter became so offensive to the people residing in that section of the East End that Sanitary Officer Burgess was notified, and he made an investigation of the matter. The practice was stopped for a short time, but last night another barrel of garbage was brought from the vicinity of Chaffinville and the contents buried near the powder house.

The persons who owned the barrel forgot to take it away with them for future use after the contents had been buried and the odor arising from it is most sickening. The residents in that part of the city are in no happy mood and propose to find out why such actions are permitted.

The nuisance must be abated at all hazards, claim these people, and they propose to push the matter to the limit and, if needs be, cause several arrests.

Laying More Gas Mains.

Linemment in the employ of the Ft. Pitt Gas company have about completed the laying of the new six-inch gas main on Elizabeth avenue, and the next street that will be served by this company is Harvey avenue. The entire Klondike section will be furnished with gas by this company, and it will require several weeks to lay all the mains in that part of the city.

Mad Dog Killed.

Officer Jay Fisher, instead of devoting all his time to making arrests is open for engagements to kill all wild animals, especially mad dogs. He killed one last evening, and with a bullet from the revolver that was once owned by the notorious Hatfields, famous in West Virginia. The dog was found to be mad during the afternoon, and Fisher soon ended its career.

New Quarters Soon to Open.

The new quarters of the Federal Building and Loan Association of the East End will be opened next Monday. The building, which is owned by Samuel Dixon, has been remodeled, and is now being cleaned, ready for business. It has quite a neat appearance, and is the first financial institution to be opened in that part of the city.

Building More Houses.

Alex. Chafin, of the East End, has commenced to erect a number of additional houses on "Sandy Bottom," which is known as that part of the flat north of Pennsylvania avenue. The houses are small, containing three and four rooms. They will be occupied by persons coming from the south just as soon as they are completed.

Building Will Be Renovated.

The Neville Institute will close its spring term next Thursday, and for the occasion a neat literary program has been arranged. The school will be thoroughly renovated during the vacation season, and will be opened early in the spring.

EAST END AFFAIRS.

James E. Smith, who has been ill at his home on St. George street, for several days, is now suffering with typhoid fever.

During their stay in the East End, Presiding Elder Rev. C. E. Manchester and wife are stopping at the home of Mr. and Mrs. Harker.

T. J. Butler and family have removed to the East End from Jackson, O. They have purchased the new house of James Fulton, on Erie street.

WISH TO END STRIKE.

Labor Leaders and Civic Federation People Met In Chicago.

MORE ARBITRATIVE ATTEMPTS

Discussed, at a Conference—It is Said, Hanna Must Approve, if Recommendation is Made—Mitchell Was Present.

Chicago, May 27.—President John Mitchell, of the United Mine Workers of America, who has been in Chicago since Sunday relative to the situation in the bituminous coal fields, met Frank P. Sargent and Franklin MacVeagh, of the Civic Federation, and Samuel Keefe, of the Longshoremen's union, yesterday, and plans for further arbitrating endeavors to settle the anthracite miners' strike on the part of the federation was discussed. The meeting was executive and definite statements as to the details of the conference were not announced. It is understood, however, that the plan agreed upon contemplates calling another conference of the mine operators and the whole committee of the National Civic Federation at New York, with a view of arbitrating the strike question. It is said that the plan will be sent to Senator Hanna for approval before a recommendation for further arbitration shall be made.

STRIKERS QUITTING REGION.

A Number Leave For Bituminous Fields—Some Engineers and Firemen Won't Strike.

Mahanoy City, Pa., May 27.—Despite President Mitchell's warning against the migration of miners to the bituminous coal fields more strikers left this section yesterday for that region than on any one day since the inauguration of the present suspension at the anthracite mines.

Much apprehension is felt in United Mine Workers' circles here at the action of the colliery engineers and pumpmen at Shamokin and those in the employ of the Lehigh Coal and Navigation company in voting not to quit work on June 2 for the establishment of an eight-hour day. Mass meetings will be held here today to discuss this phase of the situation.

Last night the Philadelphia and Reading Coal and Iron company alleged that it had found bosses to man the pumps and engines in this region. Individual operators are making application for coal and iron police to be stationed at their collieries. More than a hundred armed officers will be sworn in this week.

MINERS NOT LIKELY TO STRIKE.

New York Representatives of Roads in the Virginias So Say.

New York, May 27.—Local representatives of the leading soft coal roads in Virginia and West Virginia said yesterday they had no advice respecting a possible strike by some 125,000 miners in that section. Chairman Pink, of the Norfolk and Western road, said:

"Our miners are mostly negroes. They are not organized, so far as I know. They receive fair wages and seem to be satisfied. I do not believe they are likely to join in any sympathetic movement."

LUMBER FOR ST. VINCENT

A United States Transport to Carry That Donated by Canadian Government.

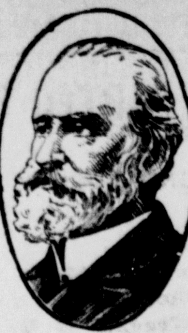

Washington, May 27.—The navy department has added one more and perhaps the last to the good offices which it has been called on to perform in behalf of the West Indian volcanic sufferers, by undertaking to transport to the homeless people of St. Vincent a large quantity of building lumber which the Canadian government has donated. The lumber is coming by railroad from Canada through to Norfolk, the treasury officials authorizing its passage through the United States in bond and without payment of duty. At Norfolk the lumber will be loaded on the collier Leonidas and transported directly to St. Vincent.

Having relieved all present necessities of the inhabitants of Martinique and St. Vincent, the navy department has decided to suspend further activity in that direction and merely to "stand by" ready to respond to any call for assistance. The little Potomac, which, under the able direction of Lieutenant McCormick, has performed such splendid service in the relief work, will not be sent back again unless new and worse conditions develop.

Outlook In China Is Very Hopeful

By Dr. W. A. P. MARTIN, Ex-President of the Imperial Chinese College, Peking

THE outlook in China is decidedly hopeful for the future. The whole country appears to be awake to the necessity of educational reform. Colleges and graded schools are ordered to be established in all the provinces, and the printing presses of missionary societies are unable to supply scientific books with sufficient rapidity to meet the demand of Chinese readers. Not only has the defeat sustained by China deepened the impression of this necessity for a new education, but the Chinese government has wisely changed the character of its educational tests. Instead of requiring as a condition for appointment to honors and office the composition of sonnets it now requires some knowledge of western science.

I REGARD THE MISSIONARIES' WORK AS HAVING LED THE WAY TO THIS VERY INTELLECTUAL AWAKENING. All missionaries of all denominations and of all countries have contributed to it. As to missionaries being the cause of the Boxer outbreak, they have, to a great extent, been victims of the outbreak, but in no sense have they been its causes.

IN SOME RESPECTS THE SITUATION OF CHINA WITH REFERENCE TO OTHER NATIONS IS MUCH IMPROVED BY RECENT OCCURRENCES. FOREIGN NATIONS, HAVING RUN UP A VERY LARGE BILL IN THE WAY OF WAR INDEMNITY, ARE DESIROUS OF MAINTAINING THE STATUS QUO IN CHINA SO THAT SHE MAY BE ABLE TO PAY OFF THE INDEMNITY.

They accordingly look with disfavor on the movement of any particular country to provoke a conflict on any ground whatever.

The country in general is in a more tranquil condition than I could have expected a year ago. The policy of the government has undergone a great change. It was the progressive measures of the young emperor which brought on the reaction that led to the Boxer outbreak. But now the government has abandoned its reactionary policy and has entered with apparent zeal on a career of progress, the empress dowager leading the way. From her first accession to the supreme power she showed a progressive tendency, and, although for a time she fell under the influence of a hostile reaction, she appears to have resumed, ex animo, her earlier and more liberal inclinations.

LIEUT. POTTS WELL TREATED.

Not Received by Emperor, Because Latter Has Been Absent.

Berlin, May 27.—Lieutenant Commander Templin M. Potts, the naval attaché of the American embassy here (who succeeded Commander William H. Beehler), will, by appointment, be presented to Admiral Von Tirpitz, the secretary of the imperial admiralty, today.

Lieutenant Commander Potts has already been received by the other German naval officials of high rank with every mark of consideration. The American naval attaché has not yet had an audience of the emperor, simply because his majesty has been almost continuously absent from Berlin since the foreign office was officially notified of Lieutenant Commander Potts' arrival.

71 BODIES RECOVERED.

It Was Thought 40 to 80 Were Still in Mine Last Night.

Fernie, B. C., May 27.—With all experienced miners available for rescue work intelligently utilized in four-hour shifts, the clearing of the ill-fated workings at Coal Creek mine advanced yesterday. No. 3 slope was penetrated to its furthest extremity and all remaining bodies removed. No. 2 slope and workings were being cleared rapidly, and it was expected that by this morning the bodies will have been removed.

Seventy-one had been recovered last night, and estimates of those remaining varied from 40 to 80. There is great diversity of opinion as to the probable cause of the explosion, and a formal investigation will be necessary to decide.

May Aid Tennessee Sufferers.

Washington, May 27.—The house committee on appropriations had under consideration yesterday the resolution offered by Mr. Gibson, of Tennessee, appropriating \$10,000 for the Tennessee mine sufferers. Mr. Gibson appeared before the committee in behalf of the resolution and stated that there were between 1,000 and 1,200 people in needy circumstances by reason of the disaster.

NEWS IN BRIEF.

The largest flowing oil well ever struck in Ohio was shot on the W. H. Coons farm, east of Findlay. The oil spouted 50 feet above the top of the derrick, 72 feet high, for five hours. The production of the well is estimated at 1,000 barrels a day.

At Lexington, Ky., County Judge Bullock assessed fines aggregating \$10,426 against "blind tiger" operators, users of profane language and carriers of concealed weapons in the little town of Athens, Ky.

At Philadelphia, John I. Rogers, as counsel for the Brooklyn National league baseball club, filed a bill in equity in common pleas court No. 1 against James T. McGuire, catcher of the Detroit American league team, to enjoin him from playing with any club but the complainant organization during the season of 1902.

MORO ATTACKED AMERICAN.

Under Flag of Truce Cut Off Soldier's Arm.

Manila, May 27.—While Second Lieutenant Robert C. Humber, of the Tenth infantry, and Sergeant Walling, of the same regiment, were walking six miles from Camp Vickers, in Mindanao, they perceived a single Moro carrying a flag of truce. When the native had approached close to the Americans he suddenly drew his creese and slashed Sergeant Walling, cutting his arm completely off. Lieutenant Humber attempted to shoot the Moro, but his revolver missed fire, and the native escaped in the tall grass.

General Davis, commander of the American forces in Mindanao, has reiterated his orders that no American soldiers are to leave camp unless in a party of at least eight men, who must be armed and prepared for any emergency.

Travelers to California

Naturally desire to see the grandest and most impressive scenery en route. This you will do by selecting the Denver & Rio Grande and Rio Grande Western, "The Scenic Line of the World," and "The Great Salt Lake Route," in one or both directions, as this line has two separate routes across the Rocky mountains between Denver and Ogden. Tickets reading via this route are available either via its main line through the Royal George, Leadville, over Tennessee Pass, through the Canon of the Grand river and Glenwood Springs, or via the line over Marshall Pass and through the Black Canon of the Gunnison, thus enabling the traveler to use one of the above routes going and the other returning. Three splendidly equipped fast trains are operated to and from the Pacific coast, which carry through standard sleepers daily between Chicago, St. Louis, Denver and San Francisco. Dining cars (service a la carte) on all through trains. If you contemplate such a trip, let us send you beautifully illustrated pamphlets, free. S. K. Hooper, G. P. & T. A., Denver, Col. 7-43-44

OHIO REPUBLICANS. For Pale, Sickly Women

Convention Meets Today—Planning For Party Control In 1903 and 1904.

HANNA FOR THE PRESIDENCY.

Talk of His Nomination Indulged In. Convention Likely to Declare Against Trusts That Fix Prices Against Consumers.

Cleveland, May 27.—The Ohio Republican convention convened here today.

With the exception of Senator Foraker, the Ohio Republican leaders were all here last night. Governor Nash, the temporary chairman, General Grosvenor, the prospective permanent chairman; Congressman Dick, chairman of the state executive committee, and other congressmen and leaders spent the evening at the residence of Senator Hanna considering disputed planks in the platform. There are different forms of resolutions on Cuban reciprocity, the trusts and the tariff, but there are no great marked differences of opinion even on these declarations. It is proposed to oppose all trusts that fix prices against consumers, but not to oppose such combinations as save expenses in production. Those insisting on a reduction of the tariff on industries that they claim no longer need protection do want to go further than to recommend such reductions as congress may see fit to make without specifying where or how congress should reduce the same. Cuban reciprocity is the most disputed point before the platform makers.

Next year members of the legislature that choose the successor to Hanna are elected with a full state ticket and one of the purposes of the leaders this year is to secure the control of the party machinery for the important state contest of 1903 and for the presidential election of 1904. The Hanna men claimed last night that they will secure at the district meetings today 18 out of the 21 members of the state central committee.

Much comment was for Hanna for senator to succeed himself next year and for president the following year.

Home Sweet Home!

Mid pleasures and palaces though we may roam,
Be it ever so humble there's no place like home;
A charm from the skies seems to hallow us there
Which seek through the world is ne'er met with elsewhere.
An exile from home, pleasure dazzles in vain,
Ah, give me my lowly thatched cottage again,
The birds singing sweetly that came to my call,
Give me them and that peace of mind, dearer than all.

THE poet when he wrote these immortal verses touched a note that finds an echo in every Anglo-Saxon breast. How we love the sentiment expressed! Perhaps your home has been so varied by many movings that these lines don't find their responsive chord?

Is it wise to live in a house that is not your own, putting up with all the inconveniences of a tenant house, the ups and downs with the landlord and a thousand vexations that arise when almost by the reaching out of your hand a home comes within your reach? Through us is offered to you your choice of more than

in the city, at all prices, in all locations and at all kinds of terms of purchase. Whether you have much money or little, we would like to have you see what we can do for you toward your owning a home. We are not entirely mercenary in this plea for your consideration. Profit we must have, yet we hope that your profit will be the greater. Hundreds of satisfied purchasers throughout the city will tell you of us. Come and let us do the thinking and planning for you that you may own a home, realizing that it is yours, and join in the chorus and sing

Home, home, sweet, sweet home

To Save Tempers and Collars. "You button your collar the wrong way," said the salesman as he was selling neckwear to a customer.

"How is that?"

"You have buttoned the right side last. Now, when you go to take it off you will have to tug at the end of the collar and crumple it, because you can't get a proper hold of it, but if you had the left end on top you could get it off easily, then loosen the collar behind, and the right end could be easily detached. That's why men have so much trouble taking off well laundered collars. Remember to fasten the right side first and then the left, and you will save your collars and your temper."

"I never supposed there was a right and a wrong way of putting on collars."

"Try both ways and you will see."—New York Times.

Astronomical Solutions.

Though 300 years have elapsed since the death of Tycho Brahe, it appears that we are in many lines almost as far from the ultimate goal as when he began the great work of exploring the skies before the days of Kepler, when all Europe was slumbering in intellectual darkness. The science of the stars indeed has been refined and perfected in an unparalleled degree and infinitely extended in all directions, but with the bounds of darkness pushed back step by step the goal is not and never will be in sight. An infinity of objects and causes and an endless variety of phenomena are yet to be explored, and the work of the mind is rather a process of development to the perfect understanding of the universe than the solution of a simple mathematical problem.—Atlantic Monthly.

He said there was no longer any use for her to wear it now that she was married."—Boston Transcript.

PARTED BY TRIFLES

HONEYMOON QUARRELS SOMETIMES END IN SEPARATION.

Trivial Things That Have Strewn the Sea of Matrimony With the Wrecks of Married Lives Before the Voyage Was Fairly Begun.

"The only reliable thing in marriage is its uncertainty," Douglas Jerrold once remarked in a cynical moment, and, like many sayings to which one may object, this aphorism contains at least an elementary truth. It is a curious fact that while some matrimonial barks survive fifty or more years of voyaging and come safely into harbor at last others are wrecked before they leave the still waters of the honeymoon.

This was the fate of a couple known to the writer who were married a few years ago under the brightest of auspices and for whom their friends predicted nothing but happiness. The very first day of the honeymoon their wedded lives came to an abrupt and tragic termination from the simplest of causes.

The bride had brought with her on the honeymoon a parasol of a vivid, aggressive red color, to which her husband objected. He begged her not to use it, but she persisted. The dispute grew warmer and warmer, heated words were exchanged, until at last in an impulse of anger the bridegroom snatched the sunshade out of his wife's hands and threw it into the sea.

Thus ended their life together, for the indignant young wife took the next train to her mother's home, and from that day to this the foolish people have never met.

In another case, known professionally to the writer, a dispute as to the pronunciation of a word completely wrecked the married life of a young couple and brought their little tragedy into the light of the law courts.

It came out in evidence that during the honeymoon the bridegroom had ventured to correct the bride, who had mispronounced a word at the breakfast table. She resented the correction, maintaining that she was right and her lord and master wrong. The argument thus begun ended in a bitter quarrel, during which each disputant no doubt said things which had much better have been left unsaid, with the result that the silly couple separated, each refusing to yield to the other.

Efforts were made by their friends and relatives to heal the breach, but to no purpose, and the little tragedy ended in a judicial separation.

Let us seem almost incredible that people should allow their lives to be wrecked by such trivial causes, but in both these cases actual fact proves stranger even than fiction.

More ludicrous, if not more trivial, was the cause that separated a couple who were united less than a year ago. In a suit by a husband for the restitution of conjugal rights the wife declared that it was impossible to live with the plaintiff "because he snored so dreadfully."

"But, surely," the judge remarked, "this is not a sufficient reason for staying away from your husband?" "You would think it was, my lord," the lady replied, "if you lived with him. I couldn't get a wink of sleep in any part of the house, and even the neighbors complained of his snoring. It will kill me if I have to go back."

Unreasonable suspicions have contributed as much as any cause to the undoing of husbands and wives. In one domestic tragedy which was unfolded in the law courts a few years ago a newly married wife had received a letter addressed in a masculine hand. The husband, who was of a jealous temperament, demanded to see the letter, which the wife refused to show him.

High words ensued, and in a moment of uncontrollable passion the husband struck his wife, with the result that she went home to her parents and refused to live with him again.

The most tragic and dramatic part of the story was the lady's statement in court that the letter which had caused all the trouble had been written by her brother.

A clergyman told the writer that he once married a rustic couple whose matrimonial life terminated at the church door at the conclusion of the wedding ceremony.

It appears that the bridegroom had discovered that his bride had sold her mangle, which had been one of the chief inducements to marry her, and she had made an equally disappointing discovery that her swain had sold a handsome clock on which she had set her heart. Thus were two lives wrecked by a mangle and a clock, however strange and foolish it may seem.

In another case a young widow who had married an elderly bachelor who was reputed to be wealthy found after her marriage that her false lover had parted with every penny of his fortune in purchasing an annuity for his own life and was so disgusted with his meanness that she left him to the undisturbed enjoyment of his annuity.

One recreant husband gave as a reason for decamping to live with his wife the discovery that the hair which had constituted her chief charm in his eyes was false and that he could no longer either love or respect a wife who had so deceived him.—London Tit-Bits.

Muslin Underwear.

Stock replenished this week and the new numbers on sale, dainty, pretty and very reasonable in price. Think you will agree with us in saying our line of muslin underwear is by far the largest in assortment and the choicest in styles and finest in workmanship ever shown by this store. Will be pleased to submit the line to your inspection. Corset covers, from 15c to \$1.50 each. Night gowns, from 50c to \$6.50 each. Skirts, from 50c to \$10 each. Drawers, from 25c to \$2.50 a pair.

Corset Department.

We aim to carry a stock of corsets from which any lady can find the style that fits the form. Our theory is a corset to fit every form perfectly, as against distorting the form to suit any style of corset. THAT IS WHY WE FIT CORSETS. This means carrying a great many styles and makes of corsets, but the satisfaction it gives to our patrons as well as to us, not to speak of the increased business resulting therefrom is compensation enough. We carry over 20 styles of the celebrated P. & N. corsets; also several leading numbers in the following well known brands of corsets: The Redfern, The Flexibone, The R. & G., Dr. Warner's, Loomers, Royal Worcester, American Lady and Thomson's Glove Fitting. In corset waists we carry the Ferris, the Double Ve and the Imperial. Try a pair of our fitted corsets.

Washable Kid Gloves

Try a pair of our "Marvel" washable kid gloves. They will cost you \$1.75 a pair and are well worth the money.

How to Form the Reading Habit.

In order to organize odd minutes into fruitful hours one must have a consistent scheme and keep the means of carrying it out within reach. Too many people read the books which come in their way instead of putting themselves in the way of getting the right books. They buy and borrow without thought or plan because they do not understand that reading ought to be a resource as well as a recreation. Decide in advance what books you will read, and do not take up with those which drift in your direction. Do not burden yourself with a scheme so extensive that it discourages you; do not at the start plan courses of reading so vast that you are weighed down with their magnitude. Begin in a quiet and easy way by planning to read consecutively a few books in some field which interests you.—Hamilton W. Mabie in Ladies' Home Journal.

No Names Needed.

A western Kansas story shows how to be personal without mentioning names.

It was in a poker game at Colby. The sheriff of Logan county had been steadily losing to the treasurer of Ellis county. The treasurer of Ellis county had the misfortune to be possessed of but one eye, and he was a little clumsy in handling the cards. After a play in which the treasurer took a big pot from the sheriff the sheriff said, "Gentlemen, I ain't a namin' no names, but if some of you don't quit raisin' cards from the floor he'll get his other eye knocked out!"—Kansas City Journal.

HOME AFFAIRS.

Brief Notes of a Personal Nature and of Matters About Town.

A Son Born—A son has been born to Mr. and Mrs. Louis Heibner, College street.

Still Another—Born to Mr. and Mrs. M. Court, of Trentvale street, a daughter.

A New Arrival—Patrick Lynch is receiving congratulations upon the arrival of a baby girl at his home on Chestnut street.

Squire Rose Will Speak—Squire J. N. Rose has accepted an invitation to address the G. A. R. and other patriotic orders in Rogers on Decoration Day.

A Needed Ordinance—One of the councilmen, noting the actions of certain women on the street, says there is no ordinance on the subject of street walking. He proposes to have one, so that offenders can be punished.

Gun Club Will Shoot—The third tournament of the East Liverpool Gun club will take place at the club grounds next Friday afternoon, commencing promptly at 1 o'clock. Many prizes will be given to those demonstrating the proper ability. No professionals will be allowed to compete for the prizes.

C. & P. Improvements—Carpenters of the Cleveland & Pittsburg railroad have completed grading a number of improvements at the Second street passenger station. The fences fronting on the railroad on the Hotel Lakeside property have been rebuilt, as the fences along other property on the west side of the station. New steps leading to the station from the platform have been built, and at present the building presents a neater appearance than it has for years. It is likely

the building will be repainted this summer.

Rev. Mr. Fletcher and wife, of New Brighton, are visiting Rev. and Mrs. W. H. Gladden. The wife of Rev. Mr. Conway, of Uniontown, Pa., is also a guest at the M. P. parsonage.

Go to John Brookes' green house, Trentvale street, for potted and bedding plants. C. C. 'phone 522.
